"[A]n exuberant romp through evolution, like a modern-day Willy Wonka of genetic space. Gee's grand tour enthusiastically details the narrative underlying life's erratic and often whimsical exploration of biological form and function." —Adrian Woolfson, The Washington Post In the tradition of Richard Dawkins, Bill Bryson, and Simon Winchester—An entertaining and uniquely informed narration of Life's life story. In the beginning, Earth was an inhospitably alien place—in constant chemical flux, covered with churning seas, crafting its landscape through incessant volcanic eruptions. Amid all this tumult and disaster, life began. The earliest living things were no more than membranes stretched across microscopic gaps in rocks, where boiling hot jets of mineral-rich water gushed out from cracks in the ocean floor. Although these membranes were leaky, the environment within them became different from the raging maelstrom beyond. These havens of order slowly refined the generation of energy, using it to form membrane-bound bubbles that were mostly-faithful copies of their parents—a foamy lather of soap-bubble cells standing as tiny clenched fists, defiant against the lifeless world. Life on this planet has continued in much the same way for millennia, adapting to literally every conceivable setback that living organisms could encounter and thriving, from these humblest beginnings to the thrilling and unlikely story of ourselves. In A (Very) Short History of Life on Earth, Henry Gee zips through the last 4.6 billion years with infectious enthusiasm and intellectual rigor. Drawing on the very latest scientific understanding and writing in a clear, accessible style, he tells an enlightening tale of survival and persistence that illuminates the delicate balance within which life has always existed. ***Publishers Weekly Best Books of 2017 This “epic history” (The Boston Globe) from Pulitzer Prize-winning historian Frances FitzGerald is the first to tell the powerful, dramatic story of the Evangelical movement in America—from the Puritan era to the 2016 election. “We have long needed a fair-minded overview of this vitally important religious sensibility, and FitzGerald has now provided it” (The New York Times Book Review). The evangelical movement began in the revivals of the eighteenth and nineteenth centuries, known in America as the Great Awakenings. A populist rebellion against the established churches, it became the dominant religious force in the country. During the nineteenth century white evangelicals split apart, first North versus South, and then, modernist versus fundamentalist. After World War II, Billy Graham attracted enormous crowds and tried to gather all Protestants under his big tent, but the civil rights movement and the social revolution of the sixties drove them apart again. By the 1980s Jerry Falwell and other southern televangelists, such as Pat Robertson, had formed the Christian right. Protesting abortion and gay rights, they led the South into the Republican Party, and for thirty-five years they were the sole voice of evangelicals to be heard nationally. Eventually a younger generation proposed a broader agenda of issues, such as climate change, gender equality, and immigration reform. Evangelicals now constitute twenty-five percent of the American population, but they are no longer monolithic in their politics. They range from Tea Party supporters to social reformers. Still, with the decline of religious faith generally, FitzGerald suggests that evangelical churches must embrace ethnic minorities if they are to survive. “A well-written, thought-provoking, and deeply researched history that is impressive for its scope and level of detail” (The Wall Street Journal). Her “brilliant book could not have been more timely, more well-researched, more well-written, or more necessary” (The American Scholar). When Rob was twelve, they attempted a full-blown Disney parade in their house for their Grandma. As Rob donned wigs and played Mary Poppins, Ariel, Mickey Mouse and Belle, their Dad doubled as Stage Manager, Sound Technician and Goofy. Unfortunately, Dad missed all his cues and pushed all the floats in the wrong direction. Mum mistook Aladdin for Ursula. The costumes went awry. And Ariel's bubble gun didn't work properly. Grandma had a nice time, though. My Son's a Queer (But What Can You Do?) is the joyous, chaotic, autobiographical story of actor, writer and social-media sensation Rob Madge as they set out to recreate that parade - and this time, nobody, no, nobody is gonna rain on it. It was first performed at London's Turbine Theatre in June 2021, directed by Luke Sheppard, with music by Pippa Cleary - and starring Rob Madge as Rob Madge, alongside hilarious home movies of the Madge family (plus Granny Grimble). This edition features the complete text of the play, including links to and transcriptions of the video footage, colour photographs and extra bonus content from the RDM\* Productions Archive. It concludes with an afterword by Mum and Dad about the joys to be found in championing the creativity of children - and why playing Tinkerbell, with a smile, might be the best thing you can do for your kids, and for yourselves. \* Robert Dennis Madge THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts in American history. This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date, practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in school textbooks. Kaplan's, 5-Steps, Crash Course and other review books are great resources for that last month before the exam, but Tamm's Textbook Tools student activity books are meant to be an accompaniment all year long. This AP\* U.S. History companion is filled with vocab and assignments that follow the Kennedy/Cohen sixteenth edition for all 41 chapters. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers began putting their content online, a niche for traditional classwork was opened, a void filled by this series. And whether the textbook itself is written in ink or electrons, many students still find it more valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, and diagram every chapter. Find TTT on FB. "The Impending Crisis of the South" by Hinton Rowan Helper. For thirty-five years and through thirteen editions, Jim Henslin's Down to Earth Sociology has opened new windows onto the social realities that shape our world. Now in its fourteenth edition, the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must-read essays. Focusing on social interaction in everyday life, the forty-six selections bring students face-to-face with the twin projects of contemporary sociology: understanding the individual's experience of society and analyzing social structure. The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life, mistaken perceptions of the American family, the effects of a criminal record on getting a job, and the major social trends affecting our future. Together with these essential new articles, the selections by Peter Berger, Herbert Gans, Erving Goffman, Donna Eder, Zella Luria, C. Wright Mills, Deborah Tannen, Barrie Thorne, Sidney Katz, Philip Zimbardo, and many others provide firsthand reporting that gives students a sense of "being there." Henslin also explains basic methods of social research, providing insight into how sociologists explore the social world. The selections in Down to Earth Sociology highlight the most significant themes of contemporary sociology, ranging from the sociology of gender, power, politics, and religion to the contemporary crises of racial tension, crime, rape, poverty, and homelessness. A History of the World's Religions bridges the interval between the founding of religions and their present state, and gives students an accurate look at the religions of the world by including descriptive and interpretive details from the original***

**'A fictional tour de force which combines erudition with mystery' PD James *Set in Oxford in the 1660s - a time and place of great intellectual, religious, scientific and political ferment - this remarkable novel centres around a young woman, Sarah Blundy, who stands accused of the murder of Robert Grove, a fellow of New College. Four witnesses describe the events surrounding his death: Marco da Cola, a Venetian Catholic intent on claiming credit for the invention of blood transfusion; Jack Prescott, the son of a supposed traitor to the Royalist cause, determined to vindicate his father; John Wallis, chief cryptographer to both Cromwell and Charles II, a mathematician, theologian and master spy; and Anthony Wood, the famous Oxford antiquary. Each one tells their version of what happened but only one reveals the extraordinary truth. Brilliantly written, utterly convincing, gripping from the first page to the last, *An Instance of the Fingerpost* is a magnificent tour de force. 'Anyone who reads this will want to tell their friends about it... This is a novel that combines the simple pleasures of Agatha Christie with the intellectual subtlety of Umberto Eco, don't let it pass by unread.'*** *The Times*

***Introduction to Probability Models, Tenth Edition, provides an introduction to elementary probability theory and stochastic processes. There are two approaches to the study of probability theory. One is heuristic and nonrigorous, and attempts to develop in students an intuitive feel for the subject that enables him or her to think probabilistically. The other approach attempts a rigorous development of probability by using the tools of measure theory. The first approach is employed in this text. The book begins by introducing basic concepts of probability theory, such as the random variable, conditional probability, and conditional expectation. This is followed by discussions of stochastic processes, including Markov chains and Poisson processes. The remaining chapters cover queuing, reliability theory, Brownian motion, and simulation. Many examples are worked out throughout the text, along with exercises to***

The book charts the increasing scale, expenditure and duration of early modern wars; the impact of modern fortification on strategy and the movement of armies; the incidence of guerrilla war and localized conflict typical of the French wars of religion; the recourse by warlords to private financing of troops and supplies; and the creation of disciplined standing armies and navies in the age of Absolutism, made possible by larger bureaucracies. In addition to discussing key events and personalities of military rivalry during this period, the book describes the operational mechanics of early modern warfare and the crucial role of taxation and state borrowing. The relationship between the Christian West and the Ottoman Empire is also extensively analysed. Drawing heavily upon international scholarship over the past half-century, European Military Rivalry, 1500–1750: Fierce Pageant will be of great use to undergraduate students studying military history and early modern Europe.
