[The Federalist Papers](#) Nov 30 2019 The Federalist Papers Alexander Hamilton - Hailed by Thomas Jefferson as the best commentary on the principles of government which was ever written, The Federalist Papers is a collection of eighty-five essays published by Founding Fathers Alexander Hamilton, James Madison, and John Jay from 1787 to 1788, as a means to persuade the public to ratify the Constitution of the United States. With nearly two-thirds of the essays written by Hamilton, this enduring classic is perfect for modern audiences passionate about his work or seeking a deeper understanding of one of the most important documents in US history.

[Redefining Urban and Suburban America](#) Dec 24 2021 The early returns from Census 2000 data show that the United States continued to undergo dynamic changes in the 1990s, with cities and suburbs providing the locus of most of the volatility. Metropolitan areas are growing more diverse—especially with the influx of new immigrants—the population is aging, and the make-up of households is shifting. Singles and empty-nesters now surpass families with children in many suburbs. The contributors to this book review data on population, race and ethnicity, and household composition, provided by the Census's "short form," and attempt to respond to three simple queries: —Are cities coming back? —Are all suburbs growing? —Are cities and suburbs becoming more alike? Regional trends muddy the picture. Communities in the Northeast and Midwest are generally growing slowly, while those in the South and West are experiencing explosive growth ("Warm, dry places grew. Cold, wet places declined," note two authors). Some cities are robust, others are distressed. Some suburbs are bedroom communities, others are hot employment centers, while still others are deteriorating. And while some cities' cores may have been intensely developed, including those in the Northeast and Midwest, and seen population increases, the areas surrounding the cores may have declined significantly. Trends in population confirm an increasingly diverse population in both metropolitan and suburban areas with the influx of Hispanic and Asian immigrants and with majority populations of central cities for the first time being made up of minority groups. Census 2000 also reveals that the overall level of black-to-nonblack segregation has reached its lowest point since 1920, although high segregation remains in many areas. Redefining Urban and Suburban America explores these demographic trends and their complexities, along with their implications for the policies and politics shaping metropolitan America. The shifts discussed here have significant influence in demand for housing and schools, childcare and healthcare, as well as private goods and services. Contributors include: Alan Berube (Brookings Institution); Benjamin Forman (Massachusetts Institute of Technology); William H. Frey (University of Michigan, Milken Institute); Edward L. Glaeser (Harvard University); John R. Logan (University at Albany, State University of New York), William H. Lucy (University of Virginia); David L. Phillips (University of Virginia); Jesse M. [Fire and Fury](#) May 17 2021 #1 New York Times Bestseller With extraordinary access to the West Wing, Michael Wolff reveals what happened behind-the-scenes in the first nine months of the most controversial presidency of our time in Fire and Fury: Inside the Trump White House. Since Donald Trump was sworn in as the 45th President of the United States, the country—and the world—has witnessed a stormy, outrageous, and absolutely mesmerizing presidential term that reflects the volatility and fierceness of the man elected Commander-in-Chief. This riveting and explosive account of Trump's administration provides a wealth of new details about the chaos in the Oval Office, including: -- What President Trump's staff really thinks of him -- What inspired Trump to claim he was wire-tapped by President Obama -- Why FBI director James Comey was really fired -- Why chief strategist Steve Bannon and Trump's son-in-law Jared Kushner couldn't be in the same room -- Who is really directing the Trump administration's strategy in the wake of Bannon's firing -- What the secret to communicating with Trump is -- What the Trump administration has in common with the movie The Producers Never before in history has a presidency so divided the American people. Brilliantly reported and astoundingly fresh, Fire and Fury shows us how and why Donald Trump has become the king of discord and disunion. "Essential reading."—Michael D'Antonio, author of Never Enough: Donald Trump and the Pursuit of Success, CNN.com "Not since Harry Potter has a new book caught fire in this way...[Fire and Fury] is indeed a significant achievement, which deserves much of the attention it has received."—The Economist

[Brookings Big Ideas for America](#) Nov 03 2022 As a new administration takes office, what are the biggest issues facing the country? The Brookings Institution offers answers to that question in this volume, which continues the Brookings tradition of providing each incoming administration with a nonpartisan analysis of the major domestic and foreign questions confronting America. On the domestic front, Brookings scholars tackle topics ranging from health care and improving economic opportunity to criminal justice reform, lawful hacking, and improving infrastructure. The alliance system, the relationship with China, nuclear weapons, terrorism, and the ongoing conflicts in Afghanistan and Syria among the foreign policies issues addressed. Throughout, Brookings scholars share their individual ideas on how best to address the agenda that awaits the new administration.

[Model Rules of Professional Conduct](#) Jan 05 2023 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

[Unable](#) Dec 04 2022 Since the election of President Donald Trump, the Twenty-Fifth Amendment to the Constitution - covering presidential incapacity - has been a frequent topic of public discussion. But few understand how this amendment really works. Unable: The Law, Politics, and Limits of Section 4 of the Twenty-Fifth Amendment explains, in Part I, the basics of the Twenty-Fifth Amendment, especially Section 4, correcting common misconceptions, and resolving some of its ambiguities. Part II explores history: presidential disability before Section 4; the creation of Section 4 in 1965; the (non)use of

Section 4 since then; and Section 4's portrayal in movies, books, and television. Part III presents a series of hypothetical scenarios that dramatize how Section 4 would work - or not work - in a wide variety of situations. Part IV concludes with some thoughts on how Section 4 interacts with constitutional law more generally, and some suggestions on how to improve Section 4's operation. Unable is designed to educate and inform the public about Section 4 and the Twenty-Fifth Amendment in an even-handed and accessible way, allowing readers to judge for themselves whether presidents - past and present - were or are fit to serve in office.
