Congo Democratic Republic Country Study Guide - Strategic Information and Developments This textbook is designed for first-time students of politics. It provides an ideal introduction and survey to the key themes and issues central to the study of democratic politics today. The text is structured around three major parts: concepts, institutions and political behaviour; and ideologies and movements. Within each section a series of short and accessible chapters serve to both introduce the key ideas, institutional forms and ideological conflicts central to the study of democratic politics and provide a platform for further, in-depth studies. Each chapter contains a 'bullet-point' summary, a guide to further reading, and a set of questions for tutorial discussion. Designed and written for an undergraduate readership, Understanding Democratic Politics: An Introduction will become an essential guide and companion to all students of politics throughout their university degree. Do you know what the Constitution ACTUALLY says? This witty and highly relevant annotation of our founding document is the go-to guide to how our government really works (or is supposed to work). Written by political savant and entertainment veteran, Ben Sheehan, and vetted for accuracy by experts in the field of constitutional law, OMG WTF Does the Constitution Actually Say? is an entertaining and accessible guide that explains what the Constitution actually lays out. With clear notes and graphics on everything from presidential powers to Supreme Court nominations to hidden loopholes, Sheehan walks us through the entire Constitution from its preamble to its final amendment (with a bonus section on the Declaration of Independence). Besides putting the Constitution in modern-day English so that it can be understood, OMG WTF Does the Constitution Actually Say? gives readers all of the info they need to be effective voters and citizens in the November elections and beyond. Reading Essentials and Study Guide (English and Spanish): Reinforce critical concepts from the text and help students improve their reading-for-information skills with this essential resource, written 2-3 grade levels below the Student Edition Never HIGHLIGHT a Book Again Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780872893795. This item is printed on demand. Presents a selection of questions and answers covering the principles of democracy, including human rights, free and fair elections, open and accountable government, and civil society. Many educators can recite the faults of their schools or universities, but far fewer can recognize and develop existing strengths to benefit a wider audience. Sukhwant Jhaj has crafted a refreshing new look at how imaginative leadership and a shift in perspective can propel institutions to reach at-risk or underrepresented members of their communities. Delivering on the Promise of Democracy pulls back the curtain on seven high-performing universities to reveal which daily decisions, including listening to the community, embracing conflict, and implementing effective strategies through routine, guide administrators in achieving exceptional results. Through in-depth interviews that offer a close look at these seven universities, Jhaj traces a new trajectory for higher education: a call to question a university's effectiveness through its accessibility to the community it serves. Jhaj's book will inspire anybody interested in widening access to education with its call to renew their institution's mission through powerful and effective leadership. DEMOCRACY FOR THE FEW is a provocative interpretation of American Government. It shows how democracy is repeatedly violated by corporate oligopolies, and how popular forces have fought back and occasionally made gains in spite of the system. By focusing on the relationship between economic power and political power, discussing actual government practices and policies, conspiracies, propaganda, fraud, secrecy and other ploys of government and politics, this book stands apart in its analysis of how US Government works. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. To accomplish your course goals, use this study guide to enhance your understanding of the text content and to be better prepared for quizzes and tests. This convenient manual helps you assimilate and master the information encountered in the text through the use of practice exercises and applications, comprehensive review tools, and additional helpful resources. Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780077550868 . Post-conflict reconstruction is one of the most pressing political issues today. This book uses economics to analyze critically the incentives and constraints faced by various actors involved in reconstruction efforts. Through this analysis, the book will aid in understanding why some reconstructions are more successful than others. Revelations about U.S policies and practices of torture and abuse have captured headlines ever since the breaking of the Abu Ghraib prison story in April 2004. Since then, a debate has raged regarding what is and what is not acceptable behavior for the world's leading democracy. It is within this context that Angela Davis, one of America's most remarkable political figures, gave a series of interviews to discuss resistance and law, institutional sexual coercion, politics and prison. Davis talks about her own incarceration, as well as her experiences as "enemy of the state," and about having been put on the FBI's "most wanted" list. She talks about the crucial role that international activism played in her case and the case of many other political prisoners. Throughout these interviews, Davis returns to her critique of a democracy that has been compromised by its racist origins and institutions. Discussing the most recent disclosures about the disavowed "chain of command," and the

formal reports by the Red Cross and Human Rights Watch denouncing U.S. violation of human rights and the laws of war in Guantánamo, Afghanistan and Iraq, Davis focuses on the underpinnings of prison regimes in the United States. Focusing on local movements to achieve equal distribution of social, economic, and political rights and natural resources, Democracy examines how ordinary and extraordinary men and women of different cultural and religious backgrounds have formed and attempted to sustain institutions that would permit them to live together in equality and peace. Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Democracy: An American Novel is a political novel written by Henry Brooks Adams and published anonymously in 1880. It is a novel about political power, its acquisition, use and abuse. It is set at the beginning of a new administration, with the election campaign just over and the new President of the United States just having been elected. However, all the characters depicted are entirely fictitious. From Nick Capodice & Hannah McCarthy, the hosts of New Hampshire Public Radio's Civics 101, and New Yorker cartoonist Tom Toro, A User's Guide to Democracy is a lively crash course in everything you should know about how the US government works. Do you know what the Secretary of Defense does all day? Are you sure you know the difference between the House and the Senate? Have you been pretending you know what Federalism is for the last 20 years? Don't worry--you're not alone. The American government and its processes can be dizzyingly complex and obscure. Until now. Within this book are the keys to knowing what you're talking about when you argue politics with the uncle you only see at Thanksgiving. It's the book that sits on your desk for quick reference when the nightly news boggles your mind. This approachable and informative guide gives you the lowdown on everything from the three branches of government, to what you can actually do to make your vote count, to how our founding documents affect our daily lives. Now is the time to finally understand who does what, how they do it, and the best way to get them to listen to you. Never HIGHLIGHT a Book Again Includes all testable terms, concepts, persons, places, and events. Accompanies: 9780073378947. This item is printed on demand. Publisher Description The primary focus of Democracy in America is an analysis of why republican representative democracy has succeeded in the United States while failing in so many other places. Tocqueville seeks to apply the functional aspects of democracy in the United States to what he sees as the failings of democracy in his native France. Tocqueville speculates on the future of democracy in the United States, discussing possible threats to democracy and possible dangers of democracy. These include his belief that democracy has a tendency to degenerate into "soft despotism" as well as the risk of developing a tyranny of the majority. He observes that the strong role religion played in the United States was due to its separation from the government, a separation all parties found agreeable. He contrasts this to France where there was what he perceived to be an unhealthy antagonism between democrats and the religious, which he relates to the connection between church and state. Insightful analysis of political society was supplemented in the second volume by description of civil society as a sphere of private and civilian affairs. Ebook EPUB version - flexible layout with scalable text. This antiquarian volume contains a comprehensive treatise on democracy and education, being an introduction to the 'philosophy of education'. Written in clear, concise language and full of interesting expositions and thought-provoking assertions, this volume will appeal to those with an interest in the role of education in society, and it would make for a great addition to collections of allied literature. The chapters of this book include: 'Education as a Necessity of Life'; 'Education as a Social Function'; 'Education as Direction'; 'Education as Growth'; 'Preparation, Unfolding, and Formal Discipline'; 'Education as Conservative and Progressive'; 'The Democratic Conception in Education'; 'Aims in Education', etcetera. We are republishing this vintage book now complete with a new prefatory biography of the author. Deliberative democracy is the darling of democratic theory and political theory more generally, and generates international interest. In this book, a number of leading democratic theorists address the key issues that surround the theory and practice of deliberative democracy. They outline the problems faced by deliberative democracy in the context of the available empirical evidence, survey potential solutions and put forward new and innovative ideas to resolve these issues. Bill Bryson meets Thomas Frank in this deeply insightful, unexpectedly hilarious story of how politicians hijacked American democracy and how we can take it back The democracy you live in today is different--completely different--from the democracy you were born into. You probably don't realize just how radically your republic has been altered during your lifetime. Yet more than any policy issue, political trend, or even Donald Trump himself, our redesigned system of government is responsible for the peril America faces today. What explains the gap between what We, the People want and what our elected leaders do? How can we fix our politics before it's too late? And how can we truly understand the state of our democracy without wanting to crawl under a rock? That's what former Obama speechwriter David Litt set out to answer. Poking into forgotten corners of history, translating political science into plain English, and traveling the country to meet experts and activists, Litt explains how the world's greatest experiment in democracy went awry. (He also tries to crash a party at Mitch McConnell's former frat house. It goes poorly.) The result of Litt's journey is something you might not

have thought possible: a page-turner about the political process. You'll meet the Supreme Court justice charged with murder, learn how James Madison's college roommate broke the Senate, encounter a citrus thief who embodies what's wrong with our elections, and join Belle the bill as she tries to become a law (a quest far more harrowing than the one in *Schoolhouse Rock*). Yet despite his clear-eyed assessment of the dangers we face, Litt remains audaciously optimistic. He offers a to-do list of bold yet achievable changes--a blueprint for restoring the balance of power in America before it's too late. A much-anticipated guide to saving democracy, from one of our most essential political thinkers. Everyone knows that democracy is in trouble, but do we know what democracy actually is? Jan-Werner Müller, author of the widely translated and acclaimed *What Is Populism?*, takes us back to basics in *Democracy Rules*. In this short, elegant volume, he explains how democracy is founded not just on liberty and equality, but also on uncertainty. The latter will sound unattractive at a time when the pandemic has created unbearable uncertainty for so many. But it is crucial for ensuring democracy's dynamic and creative character, which remains one of its signal advantages over authoritarian alternatives that seek to render politics (and individual citizens) completely predictable. Müller shows that we need to re-invigorate the intermediary institutions that have been deemed essential for democracy's success ever since the nineteenth century: political parties and free media. Contrary to conventional wisdom, these are not spent forces in a supposed age of post-party populist leadership and post-truth. Müller suggests concretely how democracy's critical infrastructure of intermediary institutions could be renovated, re-empowering citizens while also preserving a place for professionals such as journalists and judges. These institutions are also indispensable for negotiating a democratic social contract that reverses the secession of plutocrats and the poorest from a common political world. NATIONAL BESTSELLER • "How did our democracy go wrong? This extraordinary document ... is Applebaum's answer."

—Timothy Snyder, author of *On Tyranny* The Pulitzer Prize–winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In *Twilight of Democracy*, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Elegantly written and urgently argued, *Twilight of Democracy* is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values. Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780199297252. This item is printed on demand. *The Enduring Democracy* by Kenneth Dautrich, David A. Yalof, and Christina Bejarano examines the current state of American politics through the lenses of American history and the nation's changing demographics. This two-pronged approach encourages students to place current issues and controversies into historical perspective, and to think critically about how those issues and controversies are impacted by America's increasingly diverse population. By analyzing and understanding the influences of historical context and demographics, students can debate effectively with references, use historical outcomes to predict for the future, and create strong arguments based on what they know about fundamental changes in the political landscape. The highly anticipated Sixth Edition frames the 2016 general election and 2018 midterm elections from the perspective of what they mean to college students, so that they can see the relevance of American government in their daily lives. Also available as a digital option (courseware). Learn more about *The Enduring Democracy, Sixth Edition - Vantage Digital Option*.
