'Exposing The Truth - Whistleblowing Uncovered' is a no-nonsense guide to the whistleblowing journey. It provides practical advice to anyone who is contemplating making a disclosure before, during or after blowing the whistle. It is written by a former police officer who spent nearly twenty years recruiting and managing informants and who knows exactly what it takes to speak up. The book provides reassurance to those contemplating doing the right thing and encourages them to do so. This book was originally intended to be (a 3 Volume set or Trilogy, but has been shortened to a single volume and edited for publication as a single title), Not afraid To Tell The Truth which could be subtitled: Exposing the conspiracy of silence in the Last Days, it is not a book about discipleship necessarily, nor is it a book you could use as a guideline for counseling; rather it is a book written with the intention of shedding light upon (13) contrasting themes running through the whole of Gods Word, which the author believes have become confused by Western Christian wrong thinking, preaching and practice in the last days of the Church age*. False teachers and heretical teachings have crept into the Church unawares bringing with it a form of captivity similar to the captivity of the nation Israel, but with far graver consequences. Inside this Instaread of It IS About Islam:* Overview of the book* Important People* Key Takeaways* Analysis of Key Takeaways JFK. Analysis of a Shooting, is an expert, detailed and comprehensive analysis of the assassination of President Kennedy. The work takes into account all the elemental factors that lead to a complete understanding of the shooting, and which will eventually serve to establish the undisclosed facts behind the tragic event. In its process of discovery the writing scrutinizes each shot taken at the motorcade. Additionally, it considers the caliber of the rifle used in the shooting. It takes into account the relative speed (in feet per second), and the inherent power of the bullets fired at the President. It analyzes the position of the alleged gunman and its relationship to his target. It also explorers the extent of every bullet wound, as it relates to the shot that caused it. In addition, the work probes the Zapruder film, as a visual record of the event, to denote the crucial frames that expose previously unrevealed facts of the shooting. And finally, the work reviews the trajectory of every single shot taken at the motorcade, from point of impact back towards the suspected point of origin, and their angles of entry into their targets. The book denotes, through conclusive interpretation of the evidence gathered, logical reasoning, and concrete ballistic principles that a total of five shots were fired at President Kennedy. Additionally, it also explains why it can be concluded that none of the shots fired at the President actually originated from the Texas School Book Depository Building, Oswald's alleged sniper position. In the original edition of Eden to Evil, Gerry Burney explains the difference between the two biblical creation accounts, "Eden" creation and the "7-day" creation. They diverge in so many ways that many believe both cannot be true. Did God make a mistake-and how do we fit into the two accounts? But if the two accounts were not a mistake, then God must have given us a riddle that only those who search for truth will uncover. Burney deciphers the riddle to show how the answer helps us understand the Bible and how we view ourselves. Are we sinner or saints? In his new updated edition, Burney builds on the original, clarifying why a third of the angels rejected God's authority, thus exposing how early civilizations so easily accepted Satan the serpent. Now we can finally understand why we experience suffering and tragedy in God's "very good" creation and why we need a Savior. "They changed me a lot more than I changed them ... I went in as Anne Widdecombe and came out an anarchist." In 2008 Harriet Sergeant - think tank report-writer, Daily Mail journalist and author of The Public and the Police - befriended a teenage gang in south London while doing research. What began as a conversation outside a chicken take-away shop became a three-year attempt to change their lives, taking her from job centres and the care system to prison and failing schools. Her experiences left her believing that the state has played an integral part in creating gang culture in Britain - and that the entire system must now change if we want to help these young men. Reading her story will challenge everything you thought you knew about society and politics today. Original. It has been prophesied, over and over in the Bible. They will masquerade through this world as beacons of enlightenment, promising freedom and self-fulfillment to all who would listen to their message. Some are willing messengers of their Master's will, while others are unwitting victims themselves, fooled into believing that peace and prosperity can only come by uniting the world under one government. It sounds so peaceful and loving. Governments and religions are coming together for the goal of bettering humanity. Humanitarian efforts are seemingly underway, under the guise of helping the poorest among us. It's no wonder that some of the kindest of us can fall prey to these lies. Some even turn to New Age religions in hopes of finding joy and harmony in the world. You've heard the propaganda at every level. From the brainwashing of our children, to the most popular entertainers of our time, even our Presidents have been known to serve the goals of the New World Order. Unfortunately, the best among us can be deceived if we don't take a closer look. In this book, you will learn more about the Luciferian agenda. There are those amongst us who are actually serving a much darker power, while purporting to be messengers of light and hope. Every day Christians are faced with an increasing onslaught of criticism from evolutionists for their belief in God and His glorious creation. What do you say when your faith is challenged by those claiming to speak in the name of science or reason? Discerning Truth provides a practical and engaging resource on the use of logic in this critical debate. Lisle believes that creationists need to be able to recognize and refute evolutionist arguments, and to do so in a way that both honors God and lines up with the truth of His Word (Eph. 5:1). The role of logic, the study of correct reasoning, is becoming a vanishing skill in our society. Yet it is a vital tool in assisting Christians in assessing the weaknesses in evolutionary thought. Here is the clear and concise guide for every believer in defending your faith in the face of adversity. Jones compares the heart of God to the reality of present-day Christianity, documenting the progress of continual falling of man. Every year, an untold number of articles and books are published, and television programs and internet pages are produced, by respected historians through to amateur conspiracy theorists. One of the consequences of this continuous flow of stories is that, over time, increasing numbers of falsehoods and fabrications have emerged about Hitler. Many of these

have subsequently gained credence by virtue of their constant repetition – however bizarre they may be. These include such claims that Hitler was impotent (contradicted by another myth that he had an illegitimate son), that he had Jewish ancestors, or that he had killed his niece. Another claim, one of the most persistent, is that he did not commit suicide but escaped Berlin to live in Argentina for years after the war, despite his well-recorded failing health. What is the truth about his corpse, his sexual experiences, his years of poverty, his complete dominance of his subordinates? How much of what we think we know is the result of intentional or misunderstood modern interpretations? Many rumours also circulated during Hitler’s life and, with the passage of time, have been presented as facts despite having no substantial foundation. Was Hitler really a hero of the First World War and, if so, why was he not promoted beyond the rank of corporal? Was he the true author of Mein Kampf and did he write a second book that was never published, and was Hitler initially a socialist? In *The Hitler Myths* the author clinically dissects many of these myths, often in a highly amusing fashion, as he exposes the inaccuracies and impossibilities of the stories. The myths – the familiar and the obscure – are discussed chronologically, following the course of Hitler’s life. In his analysis of each of the myths, the author draws on an array of sources to prove or disprove the rumours and speculations – once and for all! Jim Garlow, the bestselling author of *Cracking DaVinci’s Code*, along with Rick Marshall take on the New York Times bestseller *The Secret* to expose its distortion of truth from a biblical perspective. Muslims claim that the Qur’an is the final revelation of Allah to Mankind, as he revealed it to Mohammed by his angel Gabriel. Islam contends that, upon reading the Qur’an, the seeker is at once convinced that it is the very word of Allah. Muslims declare that no mere man could have written such a perfect collection of verses, covering a wide variety of topics and doctrines. Within the pages of the Qur’an, one will find familiar events and people, such as the Creation, the Flood, Adam and Eve, Noah, Abraham, Moses, and Jesus. But even the casual reader will notice distinct and striking differences between the Qur’anic and the much older biblical accounts or the same topics. When confronted with these discrepancies, Muslim apologists will counter that it is the Bible itself which has been corrupted. In this thought-provoking new book, the author will examine and refute these claims through careful comparisons of Qur’anic, biblical, historical, and archaeological records. The reader will discover that the Qur’an does not even agree with itself concerning the lives and actions of the prophets and is completely at odds with the much older biblical accounts. Exposing the Truth about the Qur’an (Vol. 1) will discuss a wide range of topics and people such as: Creation, Adam, Satan, Noah, Abraham, Lot, Ishmael, Isaac, Joseph, Job, Jonah, Moses, Joshua, and Elijah. After fourteen centuries of blind adherence, now is the time for thoughtful examination. This amazing, life-changing vision takes readers on the journey from before time to the end of this age. It shows how the jealousy of one angel forever marred the life of every angel and man alike. What would you do if someone you are attracted to is married? This is not your common guide to Kriya Yoga. It is something you’ve never seen before. This is for those who are sick of the secretiveness of Kriya Yoga and all the taboos. They just want the end of misery and are sick of this human-ego-game played by most Kriya Gurus and Kriya organizations. This is not a publication with cliché yoga theory and no practice instructions. It gives very powerful direct teachings and actual instructions. These themes will be addressed: Current Kriya Yoga Masters and organizations will be exposed without any biased filter; The often misunderstood "Inner Guru" and its nature will be revealed; The whole Spiritual Process of Kriya Yoga and Spirituality, in general, will be explained; The sharing of a new discovery regarding the Higher Kriyas, the Final Special Kriya, never shared before in the literature of Kriya, will boost your practice beyond belief; It also includes the techniques of the First Kriya, with an in-depth explanation on how to quickly achieve Kechari Mudra that is not found anywhere else; The most powerful Kundalini awakening technique that Gurus and organizations rarely teach will be given at the end of the First Kriya; The ultimate question whether Kriya Yoga can lead you all the way to True Enlightenment will be answered; Lahiri Mahasaya and other True Masters’ words will be used throughout the book to support what is written; And much more. This book will help you become free from the dogmas and beliefs created by the Kriya Gurus, organizations and Kriya literature, and also help you awaken the essential discernment needed to take that very important step forward, toward yourself, toward your True Self, the Infinite Consciousness within you. By exposing the truth about some organizations and Gurus, I’m sure their followers will want to give bad reviews to this book. Either that or their newly awakened discernment will help them make a huge breakthrough toward True Enlightenment. I will take that risk. And so should you. Written by Rachael Denhollander, recipient of Sports Illustrated’s Inspiration of the Year Award and one of Time’s 100 Most Influential People (2018). “Who is going to tell these little girls that what was done to them matters? That they are seen and valued, that they are not alone and they are not unprotected?” Rachael Denhollander’s voice was heard around the world when she spoke out to end the most shocking USA gymnastics scandal in history. The first victim to publicly accuse Larry Nassar, the former USA Gymnastics team doctor who sexually abused hundreds of young athletes, Rachael now reveals her full story for the first time. How did Nassar get away with it for so long? How did Rachael and the other survivors finally stop him and bring him to justice? And how can we protect the vulnerable in our own families, churches, and communities? What Is a Girl Worth? is the inspiring true story of Rachael’s journey from an idealistic young gymnast to a strong and determined woman who found the courage to raise her voice against evil, even when she thought the world might not listen. In this crucial cultural moment of #MeToo and #ChurchToo, this deeply personal and compelling narrative shines a spotlight on the physical and emotional impact of abuse, why so many survivors are reluctant to speak out, and what it means to be believed. Is the world soon ending? Scores of best-selling books, claiming to be highly spiritual and Biblical, have warned us in recent decades that Armageddon, World War 3, and the Rapture are coming in the next few months. From Hal Lindsay, to Tim LaHaye, to John Hagee, the "urgent message" keeps getting relayed: we should fear the imminent end of the world. Can a Christian doubt the end is near? Considering that the doomsdayists have been wrong time and time again for centuries, maybe we should doubt. Now acclaimed author Reverend Doctor Lance Moore offers inquisitive minds an alternative Biblical view as he challenges the sensationalistic profiteering behind "Left Behind" and "Blood Moon" fears, with a clear examination of the truth-and an expose of the false motives of End Time propheteers." By way of critical and controversial commentary, this book issues a challenge to the sacred beliefs associated with Christianity, e.g. Jesusa purpose, the existence of heaven, the authenticity of biblical scripture, the forgiveness concept, and the understanding of Godas existence. I am writing from a laymanas theological point of view accented with a divinity school education. Sermons have been included to not only display my sermon-writing abilities, but I am sharing them to support my opinion that, despite varying theological views, Christianity can be used in a way to literally move people in the right direction and generate a remarkable faith without subscribing to those divine tenets that really do not make any sense at all. "A superb, crucial, blistering expose of all the myths about our education system that are all too often used to attack it. Melissa Benn again proves why she is one of country's most formidable education campaigners - and why the powerful should fear her. Owen Jones, Guardian columnist and best-selling author Never has it been more urgent to publicise the truth about what works and doesn't work in our education system. Debunking the ideology of marketisation, and exposing the half-truths that pass for objective reporting, Benn and Downs meticulously lay out the evidence: that a national system of comprehensive schools delivers the best outcomes. This hugely important book should be required reading for each new Education Secretary. Caroline Lucas, MP Opinions about comprehensive education are often made into easy-to-swallow sound-bites by media and politicians alike and whilst the benefits of a genuinely comprehensive education for all pupils are obvious, untruths have unwittingly evolved into hard facts. Based on Melissa Benn and Janet Downs’ work as part of the pioneering Local Schools Network, *The Truth About Our Schools* calls for us to urgently and articulately challenge unquestioned myths about state education. Benn and Downs have meticulously built an argument for its still enormously vital role, and rigorously challenge assumptions that: Comprehensive education has failed Local authorities control and hold back schools Choice, competition and markets are the route to educational success Choice will improve education in England: the free school model. Academies raise standards Teachers don’t need qualifications Private schools have the magic DNA Progressive education lowers standards Anyone who thinks that comprehensive education cannot deliver, that local authorities are the chief block to improving our school system, that competition and markets are the route to educational success and that private schools hold the magic DNA that can simply be transferred to other state schools will have their beliefs shaken by this blisteringly incisive book. . A critique of Rhonda Byrne’s “The Secret” explains why the book’s teachings are incorrect and dangerous and outlines an alternative path to success based on biblical principles and the acknowledgement of Jesus as Lord.
