Skin In Love with the Firefighter Here, and Here

New fans and old fans alike will appreciate three compelling stories--Snow in April, Wild Mountain Thyme, and Flowers in the Rain--filled with life, love, and family drama by the much beloved author of The Shell Seekers. Haven't we all been told how beauty

is thin as truth? And don't we believe and disbelieve this "lie we'd carve and starve for. / We'd suck it till the juice ran down our arms"? Skin compels us, repels us. Beauty may be only skin deep, a fine covering—sensuous, at times translucent, almost transparent, and yet so obdurate. Skin insulates, guarding its vital organs just beneath this surface that teases us to peek, to try to penetrate. We call this desire by many names, the best of which is love. April Lindner's sensuously orchestrated collection of poems conveys the beauty and truth of love, how we know it to be paradoxical, obsessive, fearful, rapacious, holy.—Robert Fink

Fontanel Here's the ravine, a stretch of skinspanning the breach like a footbridge. Canvas-thin, it trembles with the blood that runs beneath. Something less tangible courses there too, a whitewater flume of images: the stretching housecat; car keys that sing and catch light; floorboards knotted with dark, animal eyes; the window with its shifting square of sky. All things equal, each thing startling, and everything unmediated by the mind's habitual grapple with why and so what. You frown at a faded wallpaper pineapple, and the membrane flutters harder. I'm careful when I comb your sparse brown hair. When I sing your name I borrow a lilt I'd never use in speech. The words don't matter; I'm saying drink me while you can, like milk. Let me be flesh and flannel, hands that loosen your tangled blanket. Know me by scent before you learn my name, before doorknobs turn into doorknobs, before the gates knit shut. "The Appalachian Mountains attracted an endless stream of visitors in the twentieth century, each bearing visions of the realm that they would encounter on high. The name "Appalachia" became shorthand for a series of moral and economic calculations and pop culture references. Well before large numbers of tourists took to the mountains in the latter half of the century, however, networks of missionaries, sociologists, folklorists, doctors, artists, and conservationists made Appalachia their primary site for fieldwork. Proving Ground studies a collection of these professionals in transit to show that the travelers' tales were the foundation of powerful forms of insider knowledge. The visitors represented occupational and recreational groups that used Appalachia to gain precious expertise, and it was to these groups that they became insiders. They were not immersing themselves in a regional culture, but rather in their own professional cultures. These were people who used the mountains to help themselves. Proving Ground is a cultural history of expertise, an environmental history of the Appalachian Mountains, and a historical geography of spaces and places in the twentieth century. By using these frameworks to analyze the personal papers, professional records, and popular works of these budding experts, the book presents mountain landscapes as a fluid combination of embodied sensation, narrative fantasy, and class privilege. It will attract students of Appalachian Studies who are interested in the phenomena of cultural and environmental intervention, environmental historians concerned with the construction of hybrid landscapes, and mobility scholars who recognize the organizational power derived from access and movement"-- This sampler provides a sneak peek of the books from our 2022 Smarty Pants Romance launches! definitely a hero... But is he the right hero for her? Moving to Cape Pursuit, Virginia,  
gives Nicole Wheeler the fresh start she desperately needs. But there's a catch: Kevin  
Ruggles, the handsome firefighter who welcomes her to town. Kevin is brave, ambitious  
and committed to the same career that killed her brother. Nicole can't go down that  
path again...no matter how much her heart protests. In January 1862, Charles Godwin  
courted Harriet Russell, ultimately unsuccessfully, with the following lines: "Like  
cadences of inexpressibly sweet music, your kind words came to me: causing every  
nerve to vibrate as though electrified by some far off strain of heavenly harmony."  
Almost ten years later, Albert Janin, upon receiving a letter from his beloved Violet  
Blair, responded with, "I kissed your letter over and over again, regardless of the small-  
pox epidemic at New York, and gave myself up to a carnival of bliss before breaking the  
envelope." And in October 1883, Dorothea Lummis wrote candidly to her husband  
Charles, "I like you to want me, dear, and if I were only with you, I would embrace more  
than the back of your neck, be sure." In Karen Lystra's richly provocative book,  
Searching the Heart, we hear the voices of Charles, Albert, Dorothea, and nearly one  
hundred other nineteenth-century Americans emerge from their surprisingly open,  
intimate, and emotional love letters. While historians of nineteenth-century America  
have explored a host of private topics, including courtship, marriage, birth control,  
sexuality, and sex roles, they have consistently neglected the study of romantic love.  
Lystra fills this gap by describing in vivid detail what it meant to fall in love in Victorian  
America. Based on a vast array of love letters, the book reveals the existence of a real  
openness--even playfulness--between male and female lovers which challenges and  
expands more traditional views of middle-class private life in Victorian America. Lystra  
refutes the common belief that Victorian men and women held passionlessness as an  
ideal in their romantic relationships. Enabling us to enter the hidden world of Victorian  
lovers, the letters they left behind offer genuine proof of the intensity of their most  
private interactions, feelings, behaviors, and judgments. Lystra discusses how  
Victorians anthropomorphized love letters, treating them as actual visits from their  
lovers, insisting on reading them in seclusion, sometimes kissing them (as Albert does  
with Violet's), and even taking them to bed. She also explores how courtship  
rituals--which included the setting and passing of tests of love--succeeded in building  
unique, emotional bonds between lovers, and how middle-class views of romantic love,  
which encouraged sharing knowledge and intimacy, gave women more power in the  
home. Through the medium of love letters, Searching the Heart allows us to enter,  
unnoticed, the Victorian bedroom and parlor. We will leave with a different view of  
middle-class Victorian America. The complete Brush Creek Cowboys Romance series,

*"A fascinating tour of Texas state politics during the Great Depression"* from the historian and author of *Hood, Bonnet, and Little Brown Jug* (Keith J. Volanto, author of *Texas Voices*). When the venerable historian Norman D. Brown published *Hood, Bonnet, and Little Brown Jug* in 1984, he earned national acclaim for revealing the audacious tactics at play in Texas politics during the Roaring Twenties, detailing the effects of the Ku Klux Klan, newly enfranchised women, and Prohibition. Shortly before his death in 2015, Brown completed *Biscuits, the Dole, and Nodding Donkeys*, which picks up just as the Democratic Party was poised for a bruising fight in the 1930 primary. Charting the governorships of Dan Moody, Ross Sterling, Miriam "Ma" Ferguson in her second term, and James V. Allred, this engrossing sequel takes its title from the notion that Texas politicians should give voters what they want ("When you cease to deliver the biscuits they will not be for you any longer," said Jim "Pa" Ferguson) while remaining wary of federal assistance (the dole) in a state where the economy is fueled by oil pumpjacks (nodding donkeys). Taking readers to an era when a self-serving group of Texas politicians operated in a system that was closed to anyone outside the state's white, wealthy echelons, Brown unearths a riveting, little-known history whose impact continues to ripple at the capitol. "Rich in personal detail, and general audiences and aficionados of Texana will enjoy the colorful portraits of James and Miriam Ferguson, Ross Sterling, Tom Love, John Nance Garner,

and others.” —History: Reviews of New Books The latest red-hot romances from Mills & Boon Modern! Harvesting History focuses on the example of Cyrus McCormick’s invention of the mechanized reaper in 1831 to reveal connections between the historical profession and economic power in the competitive harvesting machine industry of the late nineteenth century. This book examines how Coleridge staged his private woes in the public space of the newspaper. It looks at his publications in the Morning Post, which first published one of his most famous poems, Dejection. An Ode. It reveals how he found a socially sanctioned public outlet for poetic disappointments and personal frustrations which he could not possibly articulate in any other way. Featuring fresh, contextual readings of established major poems; original readings of epigrams, sentimental ballads, and translations; analyses of political and human-interest stories, this book reveals the remarkable extent to which Coleridge used the public medium of the newspaper to divulge his complex and ambivalent private emotions about his marriage, his relationship with the Wordsworths and the Hutchinsons, and the effect of these dynamics on his own poetry and poetics. The first collection to make a comprehensive study of nineteenth-century women's poetry from late Romantic to late Victorian 'new woman' writers. Eighteen essays consider the gendered codes and genres developed by sophisticated poets. The feminine subject and marketing, a woman's tradition, lesbian desire, war, race, colonial experience, religion and science are themes of the collection, featuring, as well as the familiar Christina Rossetti and Elizabeth Barrett Browning, other poets such as 'L.E.L.', Felicia Hemans, Amy Levy and Augusta Webster. A study of the production and circulation of literary manuscripts in Romantic-era Britain Offers a detailed examination of the practices of literary manuscript culture, particularly the production, circulation and preservation of manuscripts, based on extensive archival research Demonstrates how literary manuscript culture co-evolved with print culture, in a nuanced study of the interactions between the two media Examines the changing cultural attitudes towards literary manuscripts, and how these changes affected practices and values Surveys the impact of digital media on our access to and understanding of historical manuscripts This book examines how manuscript practices interacted with an expanding print marketplace to nurture and transform the period's literary culture. It unearths the alternative histories manuscripts tell us about British Romantic literary culture, describing the practices by which handwritten documents were written, shared, altered and preserved, and explores the functions they served as instruments of expression and sociability. By demonstrating how literary manuscript culture co-evolved with print culture, this study illuminates the complex entanglements between the media of script and print. Important to the essays here is the possibility of using logos without the negative, restricting and violent aspects of logos. In this respect I speak about affirmation and about tragic awareness rather than about the tragic itself or tragic conflict, as I read texts of a literary democracy that is already here, texts by Don DeLillo, Tomas Tranströmer, John Ashbery and Thanasis Valtinos, or see arrangements by Lo Snöfall. Indeed it is all about arrangements, about knowing how to affirm and doing it rather than using language and its codes in order to transcribe, however accurate this might be. Arrangements say yes, since they do not raise any absolute boundaries. The arrangement is a logos without logos: it is a cosmos, where affirming is a tragically aware cosmetics. Cosmos is neither the world nor any ordering or embellishment of this world, but an openness as the incalculable accumulation of arrangements that say yes in their awareness that they do not amount to an ontology. Red Hot Romances from Mills & Boon! In the first full biography of actor Sidney Poitier, Aram Goudsouzian analyzes the life and career of a Hollywood legend, from his childhood in the Bahamas to his 2002 Oscar for lifetime achievement. Poitier is a gifted actor, a great American success story, an intriguing personality, and a political symbol; his life and career illuminate America's racial history. In such films as Lilies of the Field, In the Heat of the Night, and Guess Who's Coming to Dinner, Poitier's middle-class, mannered, virtuous screen persona contradicted prevailing film stereotypes of blacks as half-wits, comic servants, or oversexed threats. His screen image and public support of nonviolent integration assuaged the fears of a broad political center, and by 1968, Poitier was voted America's favorite movie star. Through careful readings of every Poitier film, Goudsouzian shows that Poitier's characters often made sacrifices for the good of whites and rarely displayed sexuality. As the only black leading man during the civil rights era, Poitier chose roles and public positions that negotiated the struggle for dignity. By 1970, times had changed and Poitier was the target of a backlash from film critics and black radicals, as the new heroes of "blaxploitation" movies reversed the Poitier model. In the 1970s, Poitier shifted his considerable talents toward directing, starring in, and producing popular movies that employed many African Americans, both on and off screen. After a long hiatus, he returned to starring roles in the late 1980s. More recently, the film industry has reappraised his career, and Poitier has received numerous honors recognizing his multi-faceted work for black equality in Hollywood. As this biography affirms, Poitier remains one of American popular culture's foremost symbols of the possibilities for and limits of racial equality. A circle of stones where time is fluid. When Sebastian stepped into her life, Elouise learns the secrets of the old trunk. And awakens shadows she thought could no longer touch her. Wholesome, sweet, feel-good humor! Four sizzingly sexy romances from Mills & Boon! Having banished eastern Native peoples to

lands west of the Mississippi, President Andrew Jackson's government by 1833 needed a new type of soldier to keep displaced Indians from returning home. And so the 1st Dragoons came into being. Will and John Gorenfeld tell their story—an epic of exploration, conquest, and diplomacy from the outposts of western history—in this book-length treatment of the force that became the U.S. Cavalry. The 1st Dragoons represented a new regiment of horsemen that drew on the combined skills and clashing visions of two types of leaders: old Indian killers and backwoodsmen such as loudmouth miner Henry Dodge; and straight-arrow battlefield veterans such as Stephen Watts Kearny, who had fought Redcoats in 1812 but now negotiated treaties with Indian tribes and enforced the new order of the West. Drawing on soldiers' journals and other never-before-used sources, Kearny's *Dragoons Out West* reconstructs this forgotten, often surprising moment in U.S. history. Under Kearny, the 1st Dragoons performed its mission through diplomacy and intimidation rather than violence, even protecting Indians from white settlers. Following the regiment up to the U.S.-Mexican War, when diplomacy gave way to open violence, this book introduces readers to future Civil War generals. Colorful characters appearing in these pages include Private Thomas Russell, a young attorney tricked by a horse thief into joining the army; James Hildreth, who authored two books on the 1st Dragoons; and English drill sergeant Long Ned Stanley, whose tenure in the 1st reveals much about American immigrants' experience in 1833–48. The promises made in Kearny's well-intentioned treaty making were ultimately broken. This detailed and in-depth look back at his legacy offers a glimpse of a lost world—and an intriguing turning point in the history of western expansion.
