Compact World Atlas The Pop-up, Pull-out Picture Atlas

This is the first English-language atlas to systematically introduce the environment, hazard, vulnerability and risk mapping for 11 natural disasters, i.e. earthquake, volcano,

landslide, flood, storm surge, sand-dust storm, tropical cyclone, heat wave, cold wave, drought and wildfire, and risk mapping for multi-hazard disaster in the world. The above 11 hazards are assessed and mapped at grid unit, comparable-geographic unit and national unit, and the multi-hazard is assessed and mapped at grid unit and national unit. The expected annual mortality and/or affected population risks and expected annual economic loss and/or affected property risk of 11 hazards and multi-hazard of the world at national level are unprecedentedly derived and ranked. The atlas can be a good reference for researchers and students in the field of natural disaster risk management and risk governance, and enterpriser and risk manager as well to understand the global natural disaster risk. Prof. Peijun Shi works at Beijing Normal University, China; Prof. Roger Kaspersen works at Clark University, USA. There's a whole world to discover inside this incredible pop-up and pull-out atlas! Take your child on an interactive tour around the world with the help of a spectacular 3D pop-up globe, amazing picture maps, fantastic pull-out pages, quizzes and masses of fabulous fun facts. They'll find out about continents and countries, people and places, flags and features and lots more! This atlas is packed with information about the way in which communities and cultures across the world have been shaped by their local environments and it looks at the ideas and initiatives which are shaping the future. A comprehensive world atlas with 60 pages of maps showing land cover, cities and towns, boundaries, rivers and lakes and places of interest. Each continent is introduced with several pages of key facts,

satellite views and information on major geographical features. Endmatter includes a gazetteer of states, geography quiz and time zones chart. A classic Usborne reference book, fully updated and now available in paperback. Atlases don't come more amazing than this! The ultimate world tour explores countries and crosses continents on its fact-finding, fun-filled journey of discovery Planet Earth is brought to life in stunning, specially commissioned 3-D maps and artworks that showcase fascinating themes, including geographical features, cities and landmarks, wildlife, and population in unprecedented detail. You'll scale the peaks of the Himalayas, trek the jungles of South America, roam the grasslands of Africa, and swim the Pacific Ocean on your incredible adventure. Visit the hottest place on Earth, spot the largest butterfly, rub shoulders with the world's biggest population, cross the busiest international border, and much, much more on your travels. This vital source of learning is perfect for children to dip into for school projects and a welcome addition to any family library. For genius geographers or anyone with a taste for adventure, this one is for you! Maps, photographs, illustrations, and text present information about the statistics, politics, history, culture, and physical features of the countries of the world, arranged by continent or region. The State of the World Atlas is an accessible, unique visual survey of current events and global trends, highlighting the international scope and complexity of many challenges facing the humanity today. With a bold new design, this distinctive atlas presents the latest statistics on international trade and migration, the

globalization of work, aging and new health risks (up to and including the COVID-19 pandemic), food and water, energy resources and consumption, literacy, gender equality, wars and peacekeeping, and more. And for the newest edition, special attention has been brought to the way that all of these issues are affected by the ongoing climate crisis. Fascinating, troubling, and surprising, this is an important resource for anyone who seeks to better understand the world around them. Our Dumb World: The Onion's Atlas of The Planet Earth, 73rd Edition features incorrect statistics on all of the Earth's 168, 182, or 196 independent nations. It also features maps, including a fold-out world map at actual size. Readers will learn about every country from Afghanistan, "Allah's Cat Box," to the Ukraine, "The Bridebasket of Europe." Today's news-parody consumer cannot possibly understand made-up current events without the context of fake world history and geography. That is why The Onion is publishing a world atlas: to help us. Our Dumb World is an invaluable tool for any reader interested in overthrowing a weakened government in East Asia, exploiting a developing nation in Africa, or for directions to tonight's party at Erica's. It is a reference guide to 250,000 of the world's most important places, such as North Korea's Trench of Victory, the Great Human Pyramid of Egypt, and Saudi Arabia's superhighway, the Mohammedobahn. The 15th edition contains over 200,000 place names, more than any other world atlas, which means even small villages are included in the index and on the maps. It is a benchmark of cartographic excellence, trusted by governments, media and international organisations as

well as being a go to reference source for households across the country. It's independent--apolitical and neutral, elegant in an attractive slipcase, and endlessly fascinating. Produced by the world's leading atlas makers for over 100 years, it's bought by over 1 million people worldwide. "An excellent world atlas. Very illuminating, good colours, clear texts...good glossary and, last but not least, up-to-date". Amazon customer review · The market-leading world atlas for work, study or leisure · Great value for money and top seller on Bookscan in this price range. · 96 pages of authoritative world maps, physical and political · 70 city maps in the fascinating World Cities section, with full-page satellite images for 10 great cities · Over 35,000 place name index · Special 32-page introductory section - 'The World in Focus' - covers key geographical themes such as the Earth's position in the Solar System, the structure of the Earth, climate and weather, the environment, population, resources, economics and international organizations. Vital information on topics covered in geography, humanities and economics courses. The information-packed World Atlas from Philip's, published in association with the Royal Geographical Society has been fully updated for this new 2021 edition. Have the world at your fingertips with this invaluable compact atlas From the African plains to the Himalayan heights, over 60 easy-to-read maps uncover the world's continents, regions and countries in astonishing clarity in the 5th edition of the Compact World Atlas. With detailed factfiles on all 195 nations plus a full index-gazetteer that contains 20,000 entries, it's the essential reference tool. Features improved landscape modelling

showing the most important roads, railways, rivers and settlements, as well as key global statistics, time zones, geographical comparisons and up-to-date reference information. Updated to include all recent border, place name and flag changes around the world. Perfect for anyone looking for a reliable fact-finder atlas at a low price - the Compact World Atlas is an unbeatable world reference for every home, office or school. Maps detailing the world's geography include information about the landscape, industry, agriculture, and population, in an atlas with more than eight hundred full-color photographs. Published in association with the Royal Geographical Society, the authoritative Philip's Complete World Atlas presents the world in cartography of exceptional quality. The large section of physical and political maps - fully revised and updated - have been selected to provide balanced coverage of the continents, while giving prominence to densely populated and economically or strategically important areas. Projections and scales have been chosen to maximize legibility and minimize distortion over the largest regions. Acclaimed by geographers everywhere, Philip's physical maps combine relief shading with layer-coloured contours to give a stunning visual impression of the Earth's surface, while charting physical features, settlements and communications with meticulous accuracy. Included also is a superb 26-page 'Images of Earth' section, showing 25 of the world's most important cities and regions in Europe, Asia, Africa, Australasia and the Americas in breath-taking satellite imagery. In addition, the atlas features a series of fascinating maps depicting our ocean

seafloors in stunning detail. Completing the atlas, and with full latitude and longitude co-ordinates along with letter-figure grid references, the extensive index of over 64,000 names includes geographical features such as mountains, rivers, lakes and deserts, as well as provinces, towns and cities. Our world is constantly changing and this refreshed atlas from the map experts at National Geographic captures the state of the planet with colorful maps, easy-to-grasp stats, and lots of fun facts--the perfect reference for young kids and students. Learn all about the people, places, animals, and environments of our world in the fourth edition of this engaging atlas. It's got a fresh, kid-friendly design; fun, lively photos; and all the latest, greatest geographic and political information that make this such a valuable resource. It's the perfect reference for kids to learn about lands close to home or oceans away--ideal for classroom use, homework help, and armchair exploration. The 400+ reusable stickers in this oversized, 32-page collection guide children on a fact-packed journey around the world, teaching them about each region's people, plants, animals and landmarks. This engaging companion to the celebrated Barefoot Books World Atlas includes a labeled, pull-out world map poster by award-winning artist David Dean. This atlas contains clear and easy to understand physical and political maps of India, continents, regions and important countries of the world supported by diagrams and charts. The atlas carries extensive coverage of thematic issues such as industry, mineral, agriculture, natural vegetation, climate, power, rail, road, air & sea routes, tourism, heritage, temperature &

pressure, environments, whether, human development, metal & non metal, and other important information. Demographic and socio-economic data of India drawn from reliable sources such as Census of India 2011, Statistical Year Book India 2014. Information about the world from authoritative published sources. Comprehensive thematic maps on Indian agriculture & irrigation, food & cash crops, climate, rain, temperature, pressure & winds, metals & non-metals, mining, fuel, industries, transport and other important demographic information Key information and data about countries of the world and world statistics #v&spublishers Student atlas. The World Atlas of Flags is a reference work for scholars and students, as well as a fascinating read for anyone interested in knowing more about vexillology - the study of flags. Beginning with the history of flags and heraldry, it explores the use of symbols and colours, flags in the military and at sea, and the flags of international organizations, such as the UN and Red Cross. The bulk of the book is a directory of flags of the world's nations. Listed by continent, each entry includes the national, or civil, flag, with some background on its origin and meaning. Where applicable, information is given on the similarities between flags of neighbouring states, or even of nations far apart that, through conquest or other historical ties, have common elements in their flags. Concise statistics help place each nation in a contemporary context, while locator maps site them geographically. With its wealth of facts and clean, abstract design, the Metropolitan World Atlas is a must-buy. Despite the burgeoning interest in metropolitan growth and globalization there has been no way

of directly comparing metropolises - until now, that is. This atlas offers a unique survey of global trade networks and their impact on metropolitan space. It documents a total of 101 metropolises, analysing them in easy-to-read ground plans. It also includes index numbers and tables regarding such aspects as population, density, pollution, travel time, data traffic, air and water travel and the size of Central Business Districts. Its unexpected combination of ground plans and statistics makes this atlas a unique work of reference where for the first time metropolitan areas like Beijing, Lagos, London, Los Angeles, Rio de Janeiro and Tokyo can be compared with one another and in terms of their position in the global urban network. Contains the latest data, maps of the world, and graphs as well as lively essays about the world, geography-themed games, crosswords, and picture puzzles. From which country can you see the Northern Lights? Where is the world's highest mountain situated? Which reef is home to 1,500 kinds of fish? Inside this book, find out about the countries, continent rivers, seas, and mountain ranges of the world. Discover hundreds of fascinating details about their landscapes, climates, and more with 100 super stickers and over 30 pages packed with amazing atlas facts. Finally, Lonely Planet has made the Atlas kids have been waiting for! With 160 pages of illustrated maps, engaging infographics, mind-blowing photography and a large dose of humour, this is the atlas that shows kids aged 8 and up what the world is really like. The State of the World Atlas is an accessible, unique visual survey of current events and global trends, highlighting the

international scope and complexity of many challenges facing the humanity today. With a bold new design, this distinctive atlas presents the latest statistics on international trade and migration, the globalization of work, aging and new health risks (up to and including the COVID-19 pandemic), food and water, energy resources and consumption, literacy, gender equality, wars and peacekeeping, and more. And for the newest edition, special attention has been brought to the way that all of these issues are affected by the ongoing climate crisis. Fascinating, troubling, and surprising, this is an important resource for anyone who seeks to better understand the world around them. Few wine books can be called classic, but the first edition of *The World Atlas of Wine* made publishing history when it appeared in 1971. It is recognized by critics as the essential and most authoritative wine reference work available. This eighth edition will bring readers, both old and new, up to date with the world of wine. To reflect all the changes in the global wine scene over the past six years, the Atlas has grown in size to 416 pages and 22 new maps have been added to the wealth of superb cartography in the book. The text has been given a complete overhaul to address the topics of most vital interest to today's wine-growers and drinkers. With beautiful photography throughout, Hugh Johnson and Jancis Robinson, the world's most respected wine-writing duo, have once again joined forces to create a classic that no wine lover can afford to be without. "The World Atlas of Wine is the single most important reference book on the shelf of any wine student." - Eric Asimov, *New York Times* "The most useful single volume on

wine ever published... If I owned only one wine book, it would be this one." - Andrew Jefford, Decanter "Like a good bottle of wine, you'll find yourself going back to it again and again... Perfect for anyone who has a thirst for greater wine knowledge." - Edward Deitch, NBC/today.com "The World Atlas of Wine belongs on your shelf... The essential rootstock of any true wine lover's library. A multi-layered snapshot of wine and how it has evolved." - Dave McIntyre, Washington Post

A marvelously illustrated look at the world's diverse forests and their ecosystems The earth's forests are havens of nature supporting a diversity of life. Shaped by climate and geography, these vast and dynamic wooded spaces offer unique ecosystems that shelter complex and interdependent webs of flora, fungi, and animals. The World Atlas of Trees and Forests offers a beautiful introduction to what forests are, how they work, how they grow, and how we map, assess, and conserve them. Provides the most wide-ranging coverage of the world's forests available Takes readers beneath the breathtaking variety of wooded canopies that span the globe Profiles a wealth of tree species, with enlightening and entertaining natural-history highlights along the way Features stunning color photos, maps, and graphics Draws on the latest cutting-edge research and technology, including satellite imagery "A new fully updated reference atlas in the exciting Collins world atlas range. showing spectacular buildings and natural wonders all over the world. A series of maps provide a continent-by-continent tour of the world, depicting such things as where the world's largest butterfly lives and which international border is crossed more than any other. The worldwide bestseller - 1/4 million copies sold 'Written by a World Barista Champion and co-founder of the great Square Mile roasters in London, this had a lot to live up to and it certainly does. Highly recommended for anyone into their coffee and interested in finding out more about how it's grown, processed and roasted.' (Amazon customer) 'Whether you are an industry professional, a home enthusiast or anything in between, I truly believe this is a MUST read.' (Amazon customer) 'Informative, well-written and well presented. Coffee table and reference book - a winner' (Amazon customer) 'Very impressive. It's amazing how much territory is covered without overwhelming the reader. The abundant photos and images are absolutely coffee-table-worthy, but this book is so much more. I think it would be enjoyable for an obsessed coffee geek or someone who just enjoys their java.' (Amazon customer) For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that

influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

The Global Atlas of Marine Fisheries is the first and only book to provide accurate, country-by-country fishery catch data. This groundbreaking information has been gathered from independent sources by the world's foremost fisheries experts. Edited by Daniel Pauly and Dirk Zeller of the Sea Around Us Project, the Atlas includes one-page reports on 273 countries and their territories, plus fourteen topical global chapters. Each national report describes the current state of the country's fishery; the policies, politics, and social factors affecting it; and potential solutions. The global chapters address cross-cutting issues, from the economics of fisheries to the impacts of mariculture. Extensive maps and graphics offer attractive and accessible visual representations. This new edition of this popular pocket-sized world atlas has fully up-to-date mapping and statistics, and includes the latest interesting facts about the world. This new edition of the

popular Mini World Atlas has been brought fully up-to-date to reflect all recent global changes. Designed in the distinctive Collins style, this is a detailed guide to the world in a handy format. Detailed maps, specifically designed for this small format, provide balanced and up-to-date coverage of the world. The maps rely on the latest cartographic technology to ensure their accuracy, accessibility and distinctive style. The level of detail is impressive for such a small format atlas, and the index contains references to over 20,000 place names.

**INCLUDES:** \* All recent political changes included in the mapping. \* Depicts place names changes around the world.
