Cases are used to frame research, aid teaching and help learning the world over. Yet, despite being so widely used, there remains a great deal of uncertainty about what constitutes case study research and how case studies should be designed and carried out. In this lucid, accessible and often witty new text, Gary Thomas introduces students and researchers to the basics of case study research. Using a wide range of real-life examples, this book sets out for those new to the method how best to design and carry out case studies in the social sciences and humanities

How to do your case study: a guide for students and researchers deals with the core issues and methods that anyone new to case study will need to understand: - What is a case study? - When and why should case study methods be used? - How are case studies designed? - What methods can be used? - How do we analyse and make sense of our data? - How do we write up and write about our case? How to do your Case Study will be essential reading for any student or researcher in the Social Sciences, Health Sciences, in Business Studies, in Education and the Humanities. "My Personal Book Of YAHUWAH New Testament and Study Guides, are an in dept introduction to discovering the Creator's Personal Name and His Son's name with the continuing Study Guide Series. I spent the first forty years of my life in mainstream religion, asking questions, and never being able to receive straight answers to the inconsistencies I found in the Scriptures themselves. In the detailed study guide series, I explain the questions in detail, and the answers I have discovered with the help of a few ministries, and the references for these books. Along with the eight years I have spent working on these books, I expect these personal books of mine to make a lot of people upset with me. As a former Governor once said,

“Were fisherman we know that only dead fish “go with the flow.” This leader companion to the grade-level teacher guides illustrates how to sustain successful implementation of the Common Core State Standards for mathematics. Discover what students should learn and how they should learn it.

Comprehensive research-affirmed analysis tools and strategies will help collaborative teams develop and assess student demonstrations of deep conceptual understanding and procedural fluency. Through the course of their work with people engaged in ministries of various kinds - spiritual directors, healthcare chaplains, local clergy, theological educators, youth workers, the authors of this groundbreaking book have become convinced of the need to provide a practical guide to the practice of pastoral supervision understood as a core discipline of the Christian church and enriched by the best of what other supervision disciplines have to offer. Each chapter focuses on a different aspect of pastoral supervision, embedding it theologically and offering rooted examples from their own practice. At the end of each chapter practical exercises are offered to help the reader reflect on their own practice and tools are suggested for use with supervision groups and in work with individuals. Russia Country Study Guide - Strategic Information and Developments Volume 1 Strategic Information and Developments Who was Luke? Was he one of Paul's companions? Was he a doctor? We do know that he was educated and cultured, writing for people far away from where Jesus lived. In his Gospel, we find the foundation of our Christmas stories and the best-loved parables, those of the Prodigal Son and the Good Samaritan. We see Jesus' concern for the poor and the marginalized, especially women and children. And it's Luke who tells us of the repentant thief on the cross and of the risen Jesus accompanying the people on the

road to Emmaus. In these twenty-six studies, we discover Luke's aim - to present the good news of Jesus as clearly and unambiguously as he can. The arborist examination is designed to assess the fundamental knowledge and skills that all tree care professionals should have, regardless of their area of practice.
