International GAAP 2020 is a comprehensive guide to interpreting and implementing International Financial Reporting Standards (IFRS), setting IFRS in a relevant business context, and providing insights into how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying, or teaching IFRS. Written by financial reporting professionals from around the world, this guide to reporting under IFRS provides a global perspective, clearly explaining complex technical accounting issues and setting IFRS in a practical context. Numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world are included. The 2020 edition has been fully revised and updated with information on the latest IFRS changes and current issues. Private Law in the External Relations of the EU is an innovative study of the interactions between EU external relations law and private law, two unrelated fields of law, inverted if private law is understood as regulatory private law - the space where regulatory law intersects with private economic activity. Here the link between the Internal Market and the global market - and thereby international law - is much more prominent. In this book, key questions about the relationship between EU external relations law and private law are answered, including: in what ways might European private law act as a tool to achieve EU external policy objectives, particularly in regulatory fields? How might the quickly developing EU external competence over the procedural dimensions of private law, including private international law, impact on substantive law, both externally and internally? And how is the legal position of private parties affected by EU external relations? In asking these questions, this edited collection opens up a field of enquiry into the so far underexplored relationship between these two fields of law. In doing so, it addresses three different aspects of the relationship: (i) the evolution of the EU competence, (ii) the ways in which EU private law extends its reach beyond the boundaries of the internal market, and (iii) the ways in which the EU contributes to the formation of private regulation at the international level. Burundi's Fourth Review Under the Extended Credit Facility (ECF) Arrangement is discussed. The measures undertaken to enhance fiscal outlook by the 2015 elections are reviewed. Satisfactory progress has been made on structural reforms. Policy discusses have focused on reinventing program implementation after the difficulties in completing the third review under the ECF arrangement. The IMF staff recommends the completion of the fourth review under the ECF arrangement, setting of new performance and indicative criteria for September 2014, and the disbursement of SDR 5 million. 1. Winner of the 2017 Alpha Sigma Nu Award The collapse of communism in eastern Europe has forced traditionally Eastern Orthodox countries to consider the relationship between Christianity and liberal democracy. Contributors examine the influence of Constantinianism in both the post-communist Orthodox world and in Western political theology. Constructive theological essays feature Catholic and Protestant theologians reflecting on the relationship between Christianity and democracy, as well as Orthodox theologians reflecting on their tradition's relationship to liberal democracy. The essays explore prospects of a distinctively Christian politics in a post-communist, post-Constantinian age. The SIPRI Yearbook is known worldwide as an authoritative and independent source of data and analysis for politicians, diplomats, journalists, scholars, students and citizens on armaments, disarmament and international security. It provides an overview of developments in international security, weapons and technology, military expenditure, the arms trade and arms production, and armed conflicts, along with efforts to control conventional, nuclear, chemical and biological weapons. The first edition of the SIPRI Yearbook was released in 1969, with the aim of producing 'a factual and balanced account of a controversial subject-the arms race and attempts to stop it'. This 46th edition of the SIPRI Yearbook covers developments during 2014 including: DT Essays on the conflicts in Syria, Iraq and Ukraine, as well as studies on the relationship of gender equality to peace and armed conflict, and the diversity of peace and war in Africa DT East Asian and European security, as well as global and regional trends in peace operations, and development challenges in fragile states DT Military expenditure, arms production and international arms transfers DT World nuclear forces, with an overview of each of the nine nuclear-armed states DT Iran's nuclear programme and multilateral arms control and disarmament DT Implications of the Ebola outbreak and the challenge of addressing CBW issues in conflict zones DT The Arms Trade Treaty, multilateral arms embargoes and export control regimes as well as a 10-year overview of patterns of armed violence, a summary of the Global Peace Index, and extensive annexes on arms control and disarmament agreements, international security bodies and events in 2014. The concept of compliance of World Trade Organization (WTO) law as part of international economic law is examined in this discerning book. The issue of compliance is examined through a broad perspective, considering the key conceptual issues which continue EXECUTIVE SUMMARY This is the final review under the Extended Credit Facility (ECF) arrangement. The program contributed to maintaining macroeconomic stability, and there was progress on structural reforms. The authorities intend to request a successor arrangement under the ECF. A new finance minister was appointed in April; uncertainly remains on the timing of elections. Preliminary data suggest that GDP in FY2014 grew by 3.5-4 percent, while inflation increased slightly to about 5 percent. An increase in fuel prices (in October) should result in fiscal savings of at least 1 percent of GDP during FY2015. The March performance criterion on net international reserves (NIR) was met, but although the deficit was lower than projected, the performance criterion on net central bank credit to the central government was missed. Downside risks are significant and include a pull-back of Venezuela-related flows, a resumption of political tensions, and vulnerability to weather events. A total of SDR 1.638 million will become available upon completion of this review, bringing total disbursements under the ECF to SDR 40.950 million. Key Policy Recommendations: • The policy mix, in particular the adjustment going forward, should come from a lower fiscal deficit rather than from a tighter monetary policy. The FY2015 fiscal deficit should be reduced to mitigate financing risks as part of a medium-term plan to restore fiscal sustainability. • The central bank should let the exchange rate adjust more to market pressures. Intervention should be parsimonious, geared at avoiding excess volatility and disorderly movements in the exchange rate; it should be guided by fundamentals in the medium term. • Progress on structural reforms (including on the energy sector and on public financial management) should catalyze more donor support and is essential for supporting growth. A possible new ECF arrangement would entrench macroeconomic stability and promote policies to generate sustained GDP growth. When the European Union signed an agreement with Turkey in 2016 to end irregular migration from Syria using extraterritorial measures, the media framed it as a radical new low in migrant protection. Similarly, when then presidential candidate Donald Trump called on Mexico to "pay for the wall," critics argued it was an outlandish departure from established norms. Extraterritorial migration control arrangements of this type have become more visible in recent years, but they are not new. Katherine Tennis traces the emergence of these agreements in the Americas, Europe, and Southeast Asia. Grounded in case studies of negotiations between the United States and Haiti and Mexico, Italy's negotiations with Tunisia and Libya, and Spain's negotiations with Senegal, Outsourcing Control argues that while some countries - sharing an interest in ensuring orderly migration or recognizing the opportunity for kickbacks - have been happy to cooperate, others have objected, claiming wealthy destination states are exploiting them to do their dirty work. Tennis shows that these different responses depend on how the government in the partner country secures its power. Autocracies and strong democracies tend to cooperate, though for different reasons and in different ways. The most unpredictable partners are fragile democracies, who are prone to nationalism and populist backlash. The first comprehensive study to trace the emergence of extraterritorial migration control agreements across nations, Outsourcing Control reveals the international and domestic pressures behind the complex, brutal, and often deadly situation facing migrants today. We Fought the Road is the story of the building of the Alaska-Canada Highway during World War II. More than one third of the 10,607 builders were black; thought to be incapable of performing on a war front by many of their white commanding officers. Their task--which required punching through wilderness on a route blocked by the Rocky Mountains and deadly permafrost during the worst winter on record--has been likened to the building of the Panama Canal. Unlike most accounts that focus on the road's military planners, We Fought the Road is boots-on-the-ground and often personal, based in part on letters from the "Three Cent Romance," the successful courtship via mail discovered in the authors' family papers The IMF's principal statistical publication, International Financial Statistics (IFS) Online, is the standard source of international statistics on all aspects of international and domestic finance. For most countries, IFS Online reports data on balance of payments, international investment position, international liquidity, monetary and financial statistics, exchange rates, interest rates, prices, production, government accounts, national accounts, and population. monthly. This 2014 Article IV Consultation highlights that Niger's overall macroeconomic performance has been broadly satisfactory. After the economic slowdown in 2013 owing to the regional security situation and adverse climatic conditions, economic growth has rebounded in 2014. Inflation has been contained, in part owing to the government's efforts to improve food security and the functioning of food markets. However, program performance has been mixed, as a combination of unexpected security and food expenditures and a shortfall in external financing have strained fiscal management. In the near term, containing the fiscal deficit through measures to improve tax policy and administration, reform customs administration, and reduce exemptions is essential to ensure sustainability. This book provides a comprehensive overview of cultural turns - groundbreaking theoretical reorientations in the study of culture, the humanities and the social sciences. It features chapters on the interpretive, performative, reflexive, postcolonial, translational, spatial and iconic turns while introducing emerging developments. This translation of a revised German classic is the first synthesis of cultural turns in the English-speaking world. Government contracting is one of the most important issues facing federal, state, and local governments. As governments contend with lower tax revenues and a growing belief that smaller government is better government, contracting has become a fundamental means of providing goods and services to citizens. This volume, which is geared toward practitioners as well as students, addresses the broad range of issues that comprise government contracting - from the political, economic philosophy, and value of contracting - to the future of government contracting. Throughout the volume academic theory provides a foundation to address practical subjects, including the contract process, monitoring and evaluating contracts, ethics, and both federal and state local government contracting. Contributors to this volume are both academicians and practitioners, who together offer their scholarly expertise and practical experience, encouraging readers to ask the very question "What is the role of government in American society?" Through this approach, students will acquire the knowledge needed to understand the various aspects of government contracting, and practitioners will enhance their public procurement skills. Government Contracting is ideally suited to MPA students, practitioners in the public sector, and elected officials looking to enhance their understanding of privatization and contracting in order to provide public services more effectively. This book brings together chapters that describe, investigate, and analyze the place of English in education in multilingual Philippines. Unlike most studies on languages in education, which take a neutral, de-contextualized stance, this volume take a pluricentric view of the English language by positioning it in relation to its varieties, as well as to other languages in the country. Because of the changing realities of English in the Philippines, traditional assumptions about the language as monolithic and unchanging, as well as about how it should be taught and learned, need to be revisited and re-conceptualized. Counter-terrorism law and policy has been prominent and widespread in the years following 9/11, touching on many areas of everyday life from policing and border control to financial transactions and internet governance. The European Union is a major actor in contemporary counter-terrorism, including through its development of counter-terrorism laws for application within the Union. This book undertakes a multi-disciplinary and empirically informed analysis of the impact, legitimacy and effectiveness of EU counter-terrorism. Taking into account legal, societal, operational and democratic perspectives, this collection connects theoretical and practical perspectives to produce an interdisciplinary and multi-stakeholder study of how we might measure and understand the impact, legitimacy and effectiveness of EU counter-terrorism. Bringing together a select group of experts in the field, particular emphasis is placed on understanding the practical experience of implementing and assessing these measures gathered from and with end users, including law-makers, policy-makers, security services, industry partners and civil society. This edited collection will be of great relevance to scholars and policy makers with an interest in counter-terrorism law, EU law and security studies. Afghanistan was an unwinnable war. As British and American troops withdraw, discover this definitive account that explains why. It could have been a very different story. British forces could have successfully withdrawn from Afghanistan in 2002, having done the job they set out to do: to defeat al-Qaeda. Instead, in the years that followed, Britain paid a devastating price for their presence in Helmand province. So why did Britain enter, and remain, in an ill-fated war? Why did it fail so dramatically, and was this expedition doomed from the beginning? Drawing on unprecedented access to military reports, government documents and senior individuals, Professor Theo Farrell provides an extraordinary work of scholarship. He explains the origins of the war, details the campaigns over the subsequent years, and examines the West's failure to understand the dynamics of local conflict and learn the lessons of history that ultimately led to devastating costs and repercussions still relevant today. 'The best book so far on Britain's...war in Afghanistan' International Affairs 'Masterful, irrefutable... Farrell records all these military encounters with the irresistible pace of a novelist' Sunday Times What is the role of water in the conversion of former industrial areas? How is water used in engaging the public to experience these sites both as physical and cultural places? Can ecological design foster the coexistence of industry and environment? The book addresses these core questions by examining the impact of the former Oregonian industry (1830-1940) on the Willamette River landscape and discussing how projects of transformation interpret the triangular interplay among industry, landscape and water. This book is a source of suggestions and ideas for scholars, students and professionals in architecture, landscape architecture, planning and their related fields who want to manage the urban landscapes successfully. The nineteenth edition of this authoritative text continues the legacy of its earlier editions and provides a comprehensive coverage of many advanced accounting topics. Detailed fundamentals provide a natural grounding and help in gaining accounting skills and knowledge. The book is aimed at CA/CS and other professional courses such as CPT, PCC, ICWA and others. The book could be used to great advantage by students of B.Com (Hons.) and accounting professionals. The prerogative has long been a mystery to most observers; this book demystifies it. It explains each of the prerogative powers in separate chapters. It clarifies the respective roles of government, Parliament and the courts in defining the extent of prerogative powers, and in regulating their use. It also looks at which powers should be codified in statute, which should be regulated by convention, and which could be left at large. The book is very timely in contributing to current debates. The fevered parliamentary debates over Brexit thrust the prerogative centre-stage. Recent controversies have ranged from the role of Parliament in assenting to treaties, to the prorogation and dissolution of Parliament, to the grant or withholding of royal assent to bills. In their 2019 election manifesto, the Conservative Party stated that 'After Brexit we also need to look at the broader aspects of our constitution, the relationship between the Government, Parliament and the courts; the functioning of the Royal Prerogative...'. The book covers the whole range of prerogative powers, from going to war and ratifying treaties, appointing and dismissing ministers, regulating the civil service and public appointments, to the grant of honours and pardons and the issue of passports. Its 19 chapters provide a comprehensive guide to the operation of the prerogative - past, present, and future - together with suggestions for reform. Beyond the scope of the dispute settlement between the Philippines and China, the South China Sea arbitral award can be thought to significantly influence the development of international law and the law of the sea. Accordingly, this book seeks to examine the South China Sea arbitration from the perspective of the development of public international law and its limitations. Specifically it addresses the issues of jurisdiction of the Annex VII Arbitral Tribunal, the historic rights, the legal status of maritime features, the lawfulness of various activities of China, and the role of the South China Sea arbitration in the international dispute settlement. In considering these issues, this book examines the South China Sea arbitration in three respects: (i) the clarification of relevant rules and obligations under the UN Convention on the Law of the Sea as well as international law, (ii) the protection of community interests at sea, and (iii) considerations of time elements in international law. TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working on energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents. Key Features: • Exhaustive compilation of data from energy supply and demand sectors • Recent data along with data from the past years covered in the form of structured and easy-to-understand tables • Recent advances made in the energy sectors • Self-explanatory figures and graphs showing the latest trends in various sectors • The "Green Focus" at the end of every chapter highlights a topical issue • A complimentary CD that contains all the chapters and additional tables This Book has been written in accordance with the New Syllabus of based on Guidelines Madhyamik Shiksha Mandal, Bhopal & Chhattisgarh Board of Secondary Education, Raipur. The book highlights current challenges and potential solutions, helping define the future direction for environmental water management. In addition, it includes a significant review of current literature and state of knowledge, providing a one-stop resource for environmental water managers. Presents a multidisciplinary approach that allows water managers to make connections across related disciplines, such as hydrology, ecology, law, and economics Links science to practice for environmental flow researchers and those that implement and manage environmental water on a daily basis Includes case studies to demonstrate key points and address implementation issues In recent years, European societies and territories have witnessed the spatial impacts of a severe financial and socio-economic crisis. This book builds on the current debate concerning how cities and urban regions and their citizens deal with the consequences of the recent financial and socio-economic crisis. Cities in Crisis examines the political and administrative implications of austerity measures applied in southern European cities. These include cuts in local public spending and the processes of privatization of local public assets, as well as issues related to the re-scaling, recentralization or decentralization of competencies. Attention is paid to the rise of new 'austerity regimes', the question of their legitimacy and their spatial manifestations, and in particular to the social consequences of austerity. The contributions to this book lay the foundation for recommendations on how to improve and consolidate qualified governance arrangements in order to better address rapid economic and social changes. Such recommendations are applicable to cities and urban regions both within and outside of Europe. It identifies possible approaches, tools and partnerships to tackle the effects of the crisis and to prepare European cities for future challenges. Only Ernest Withers, a key figure in the civil rights movement, could have delivered such iconic photographs—and the kind of information the FBI wanted . . . Renowned photographer Ernest Withers captured some of the most stunning moments of the civil rights era—from the age-defining snapshot of Dr. Martin Luther King, Jr., riding one of the first integrated buses in Montgomery, to the haunting photo of Emmett Till's great-uncle pointing an accusing finger at his nephew's killers. He was trusted and beloved by King's inner circle, and had a front row seat to history . . . but few people know that Withers was also an informant for the FBI. Memphis journalist Marc Perrusquia broke the story of Withers's secret life after a long investigation culminating in a landmark lawsuit against the government to release hundreds of once-classified FBI documents. Those files confirmed that, from 1958 to 1976, Withers helped the Bureau monitor pillars of the movement including Dr. Martin Luther King and others, as well as dozens of civil rights foot soldiers. Now, on the fiftieth anniversary of King's assassination, A Spy in Canaan explores the life, complex motivations, and legacy of this fascinating figure Ernest Withers, as well as the dark shadow that era's culture of surveillance has cast on our own time. Includes an 8-page, black-and-white photo insert. This third edition of the Principles of Banking Law provides an authoritative treatment of both domestic and international banking law. This edition contains expanded coverage of developments in other comparable jurisdictions, internet banking services and money laundering. With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the Yearbook of the United Nations stands as the authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the Yearbook includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers. This book addresses the interface of the British Foreign Office, foreign policy and commerce in the twentieth century. Two related questions are considered: what did the Foreign Office do to support British commerce, and how did commerce influence British foreign policy? The editors of this work collect a range of case studies that explore the attitude of the Foreign Office towards commerce and trade promotion, against the backdrop of a century of relative economic decline, while also considering the role of British diplomats in creating markets and supporting UK firms. This highly researched and detailed examination is designed for readers aiming to comprehend the role that commerce played in Britain's foreign relations, in a century when trade and commerce have become an inseparable element in foreign and security policies. Public Policy and Canadian Nursing: Lessons from the Field is the first text to explore the structure, governance, financing, and outcomes of Canadian health systems through a nursing lens. Drawing from his years of experience as a nursing leader in Canada, Michael J. Villeneuve looks to the impending system challenges for which policy interventions by nurses would make a valuable difference to Canadians. Intended to bolster the policy leadership competency of nurses, this volume is divided into three modules that guide nurses from the basics of Canadian governance to the history and evolution of health care in Canada and the tools and strategies needed to tackle public policy work. The author introduces readers to essential topics in health policy, including system financing and costs, Canadian population health status, and performance outcomes. Citing examples of nursing action and interventions throughout, this groundbreaking text offers practical tools and strategies to support Canadian nurses taking on policy development and highlights the vital role of the nursing profession in health system transformation. Reader-friendly and highly accessible, it features brief profiles of influential public policy leaders in nursing and other disciplines, discussion questions appropriate for undergraduate and graduate nursing students, and additional policy resources. Terrorism: Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism, as well as efforts by the United States and other nations to protect their national security interests. Volume 146, Russia's Resurgence, examines recent developments in the foreign policy and strategy of the Russian Federation, including an examination of its aggression against neighboring states with Russian populations, its recent focus on strengthening its military capabilities, its larger strategy vis-à-vis NATO and the United States, its utilization of hybrid warfare in the "gray zone" to achieve its goals, its increasing influence on Middle Eastern politics, and the historical context within which these developments have occurred. This volume includes Congressional Research Service reports on security issues concerning the United States, Ukraine, and the Russian Federation, as well as an English-language version of the Military Doctrine of the Russian Federation made available to the public, NATO's Framework for Future Alliance Operations, and recent studies on Russia's hybrid warfare from the NATO Defense College and the Joint Special Operations University Press. This edited volume explores Nigeria's domestic and international politics and its implications

for the country's national development and international status. Coinciding with the twenty year anniversary of Nigeria's return to democratic rule, this volume considers the state of democracy in Nigeria and examines its successes and challenges with a view towards offering possible solutions for the country's future development. The first half of the volume addresses domestic politics, focusing on current issues such as the 2019 elections, Nigerian federalism, media, state-civil society relations, and Boko Haram terrorism. The second half looks at Nigeria's relations with its African neighbors, discussing the relationships between Nigeria and South Africa, Egypt, Ghana, and Cameroon, among others. Engaging the full spectrum of the politics of a rising African power, this volume will be of interest to students and researchers of comparative politics, international relations, foreign policy, African studies, regional politics, peace, security, conflict, and development studies, as well as African policymakers. Contains the Economic Report of the President as transmitted to the Congress in March 2014," together with The Annual Report of the Council of Economic Advisers" and the Statistical Appendix," and includes many charts and graphs in full color.
