You still need to collect most Dreamer's Orbs (275 to access all levels), but not all of them are needed to progress through the story, let alone 100%ing the game. Most trophies are instead tied to killing minions a certain way and to the multiplayer side of the game. Even though online co-op launches in late 2020, you can still earn the Platinum through local couch co-op or via online Shareplay (PS+ required for Shareplay method and both players must own the game). If you choose to use Shareplay, remember that the trophies will unlock only for the host, so if your friend wants to unlock the trophies as well, you'll have to do everything twice. Download Now! A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its ambitious scope and gripping humanity. Today, it stands as a testament to Follett’s unassailable command of the written word and to his universal appeal. The Pillars of the Earth tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of

ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett’s historical masterpiece. It is three years after the events of Uncharted 3 and Nathan Drake, the world's most famous hunter of treasure, has hung up his boots and left that work behind him. However, the sudden appearance of his brother, Samuel Drake, has made that calling for adventure come back in full force, as he needs Nathan's help to save his own life. They are on the hunt for Captain Henry Avery's long-lost treasure, bringing them to many exotic locations wrought with danger, in another exciting entry in the Uncharted franchise. The guide includes: - A complete and detailed walkthrough of the main story. - Locations for all of the game's collectibles. - Comprehensive guide to get every single trophy. The basis of three bestselling computer games Metro 2033 and Metro Last Light, and Metro: Exodus. The year is 2033. The world has been reduced to rubble. Humanity is nearly extinct. The half-destroyed cities have become uninhabitable through radiation. Beyond their boundaries, they say, lie endless burned-out deserts and the remains of splintered forests. Survivors still remember the past greatness of humankind. But the last remains of civilisation have already become a distant memory, the stuff of myth and legend. More than 20 years have passed since the last plane took off from the earth.

Rusted railways lead into emptiness. The ether is void and the airwaves echo to a soulless howling where previously the frequencies were full of news from Tokyo, New York, Buenos Aires. Man has handed over stewardship of the earth to new life-forms. Mutated by radiation, they are better adapted to the new world. Man's time is over. A few score thousand survivors live on, not knowing whether they are the only ones left on earth. They live in the Moscow Metro - the biggest air-raid shelter ever built. It is humanity's last refuge. Stations have become mini-statelets, their people uniting around ideas, religions, water-filters - or the simple need to repulse an enemy incursion. It is a world without a tomorrow, with no room for dreams, plans, hopes. Feelings have given way to instinct - the most important of which is survival. Survival at any price. VDNKh is the northernmost inhabited station on its line. It was one of the Metro's best stations and still remains secure. But now a new and terrible threat has appeared. Artyom, a young man living in VDNKh, is given the task of penetrating to the heart of the Metro, to the legendary Polis, to alert everyone to the awful danger and to get help. He holds the future of his native station in his hands, the whole Metro - and maybe the whole of humanity. The world has moved on. Time is no more. People do not age but they can still die from accidents or murder. And so, the population has slowly dwindled and there

remains only four main areas left in the world. Lightning awakes from her crystal slumber with one task: to save as many souls as she can before the world ends in thirteen days. Join us as we scour every corner of Nova Chrysalia from the Wildlands to the Dead Dunes and back again.
