Macie Regan is too busy for much of a social life. College graduation is looming, her job prospects are grim, and she's planning her best friend Lauren's bachelorette party. Her only outlets are messages from Guy, her anonymous pen pal for the last four months. Macie needs to decide if she should meet Guy in person or let things stay as they are: safe and uninhibited. When Lauren decides on a joint bachelor-bachelorette party, she wants Macie to put past grudges aside to plan it with Macie's least favorite person on the planet: Zac Sparks. Zac Sparks has had his life planned out for him, and he's totally okay with that. He'll start working full-time for his father's investment firm after graduation; eventually move up the ladder and one day take over the company. Everything is straight and narrow. Nothing requires too much thinking. But when he talks to his mystery girl on the Blind Friends app his best friend Ford and fiancée Lauren created, he lets himself be honest and open in a way he's never been able to before. It helps him ignore the party planning with Macie Regan, who would rather slit his throat than have a civil conversation. When Macie finds out Zac is the anonymous messenger, she realizes how wrong she's been about him and decides to show him who she really is. Hopefully he'll see that what he's got right in front of him is exactly what he's looking for on the other side of his screen. She's from a lakeside suburb, padded by two parents, an overindulgent godmother, and all the amenities of affluence they can provide her. But that's not enough. Kennedi wants to experience the full benefits of her femininity at the tender age of twenty-one, a task she takes on at college, and one she's more than determined to fulfill. He's an aspiring entertainer from the dark side of the inner city. Survival for Isaak is very much an option he plans to conquer. He has to make it out of his impossible circumstances, and sacrifice is definitely the name

of the game, even if it means running the risk of sacrificing one of the most delicate and positively influential bonds he's ever made. A social experiment has never been so revealing and frightening for either one of these unassuming individuals. How could two people from the starkest contrast of rearing build an impenetrable bond in just three months? How long will it take for them to dig through their differences to understand those forces that connect them? At what cost will they find harmony to coexist? Note: This is the first installment of a three book series. It contains expletive language, sexual content, and ends on a cliffhanger. If you do not wish to have these elements in your reads, this is not the venture for you. "Dale Jamieson and Bonnie Nadzam cause us to think—and to feel—what life will be like in a future where nothing is left that is spontaneous, accidental, or uncontrolled. A beautiful—and frightening—book." —Naomi Oreskes, professor, history of science, Harvard; author, *Merchants of Doubt* "Nadzam's prose is just gorgeous—she writes about people and skies and mountains and landscapes with incredible precision and appreciation of beauty. A reader can swim in these sentences and soak up the landscape via the prose with great pleasure." —Aimee Bender on Bonnie Nadzam's *Lamb* "I started reading [Jamieson's prose] and couldn't stop... Part of what's mesmerizing about climate change is its vastness across both space and time. Jamieson, by elucidating our past failures and casting doubt on whether we'll ever do any better, situates it within a humanely scaled context." —Jonathan Franzen on Dale Jamieson's *Reason in a Dark Time* An audacious collaboration between an award-winning novelist and a leading environmental philosopher, *Love in the Anthropocene* taps into one of the hottest topics of the day, literally and figuratively—our corrupted environment—to deliver five related stories ("Flyfishing," "Carbon," "Holiday," "Shanghai," and "Zoo") that investigate a future bereft of natural environments, introduced with a discussion on the Anthropocene—the Age of

Humanity—and concluding with an essay on love. The “love” these writer/philosophers investigate and celebrate is as much a constant as is human despoliation of the planet; it is what defines us, and it is what may save us. Science fiction, literary fiction, philosophical meditation, manifesto? All the above. This unique work is destined to become an essential companion—a primer, really—to life in the 21st century. When a woman inherits her estranged mother’s bookstore in London’s Primrose Hill, she finds herself thrust into the pages of a new story—hers—filled with long-held family secrets, the possibility of new love, and, perhaps, the single greatest challenge of her life. When Valentina Baker was only eleven years old, her mother, Eloise, unexpectedly fled to her native London, leaving Val and her father on their own in California. Now a librarian in her thirties, fresh out of a failed marriage and still at odds with her mother’s abandonment, Val feels disenchanting with her life. In a bittersweet twist of fate, she receives word that Eloise has died, leaving Val the deed to her mother’s Primrose Hill apartment and the Book Garden, the storied bookshop she opened almost two decades prior. Though the news is devastating, Val jumps at the chance for a new beginning and jets across the Atlantic, hoping to learn who her mother truly was while mourning the relationship they never had. As Val begins to piece together Eloise’s life in the U.K., she finds herself falling in love with the pastel-colored third-floor flat and the cozy, treasure-filled bookshop, soon realizing that her mother’s life was much more complicated than she ever imagined. When Val stumbles across a series of intriguing notes left in a beloved old novel, she sets out to locate the book’s mysterious former owner, though her efforts are challenged from the start, as is the Book Garden’s future. In order to save the store from financial ruin and preserve her mother’s legacy, she must rally its eccentric staff and journey deep into her mother’s secrets. *With Love from London* is a story about healing and loss, revealing the emotional, relatable truths about love, family, and forgiveness. *Louise Shows You How*

Wherever You Are My Love Will Find You is a book to share with your loved ones, no matter how near or far, young or old, they are. Door een ontmoeting met een Iers echtpaar in Zuid-Frankrijk realiseert een geadopteerde vrouw zich dat ze haar biologische moeder wil leren kennen. In 2014, 33-year- old Mandy Len Catron went on a date with an acquaintance. They decided to try an experiment: inspired by a study designed to create romantic feelings, Mandy and Mark spent the evening asking each other 36 increasingly intimate questions, wondering if it would lead to them falling in love. In How to Fall in Love with Anyone, this experiment is Catron's starting point for investigating what it means to love

someone and to be loved, and how we present our love to the world. What makes love last? Can love ever work the way it seems to in films, books and social media? Is there a “right” way to fall in love? In these candid, charming and wise essays, Catron blends memoir with cultural and social commentary on the psychology, biology, history and literature of love. *How to Fall in Love with Anyone* is a deeply personal, yet universal investigation into the one thing we all want—or think we want—more than anything. Includes “To Fall in Love with Anyone, Do This”, one of the most popular essays to appear in the *New York Times*’ “Modern Love” column “In our age of total romantic confusion, Mandy Len Catron is a voice of good sense, warm humor, and consoling wisdom. Through the lens of her own relationships, she teaches us—with a deft, convincing intelligence—some of the vital moves in the art of love.” —Alain de Botton, internationally bestselling author of *How Proust Can Change Your Life* and *The Course of Love* MANDY LEN CATRON lives in Vancouver, British Columbia. Her writing has appeared in the *New York Times* and the *Washington Post*. She writes about love and love stories at The Love Story Project, and teaches English and creative writing at the University of British Columbia.

When All That's Left of Me Is Love is an intensely personal story about one family's determination to enjoy life while anticipating death. Linda Campanella's emotional account of her last year with her mother, Nancy Sachsse, wrote itself on the pages of her mind as she lay awake unable to sleep in the days and weeks following Nan's death one year and one day after a diagnosis of terminal cancer. It is a heartwarming memoir filled with

insights and inspirations that will help anyone jolted into confronting the inevitability and sudden imminence of death. Join the author as she reconstructs and relives a year of living while dying and, in the process, comes to terms with the pain and permanence of her loss. When All That's Left of Me Is Love is indeed a sad story born of death, but it is above all an uplifting portrait of living, loving, believing, and letting go. It is a celebration of the special bond between mothers and daughters, a touching love story, a spiritual journey, a poetry lesson, and even a case for happy hour. This story of a daughter's undying love for her dying mother will move and inspire not only those who face or fear death but also those who love and embrace life. 'This book is truly a testament of love, as the title suggests. It is about love refined and deepened by grief and gratitude. It is a tribute to a mother who loved with her last breath and beyond. It is the story of a daughter who gives herself away through the gift of her pen.' -Sharon G. Thornton, Ph.D., Professor of Pastoral Theology at Andover Newton Theological School

Love has been the realm of poets, artists, and philosophers throughout history, until recently, where it has been studied from a number of scientific perspectives. What the scientists are missing, argues author Michel Odent, is that love is vital as a strategy for the survival of the human race. Aggression and domination are no longer what we need to have an evolutionary advantage. What we need is the capacity to love. With a foreword by Miriam Stoppard, *The Scientification of Love* weaves together data from a multitude of disciplines, offering a number of insightful and exciting explanations and making the case for the adoption of radical new strategies for human survival. With maternal love as the prototype for all types of love, the book examines the short, but critical, time just after birth which has long-term consequences for our future capacity to love. *The Scientification of Love* looks at love holistically and in terms of the hormones which affect it in different parts of life, helping us to understand the conflict between civilization and the natural

state of the human race. Originally published in 1999, revised in 2001, and now re-released in paperback for 2014, this controversial and fascinating book by the world renowned Michel Odent - an influential pioneer in the history of childbirth and health research - is still truly groundbreaking. The letters in this collection were written by Mennonite women during the onset of Soviet Russia's most turbulent years, 1925 to 1933. They speak of refugees who survived unspeakable trials of harassment and persecution, of family losses and home dislocation. Most were written by Mariechen Harder to Abram and Anna Harder and family, her relatives who had left Kleefeld for Canada in 1924. Author Grace Cavalieri enters the life of Mary Wollstonecraft, 18th century author of "A vindication of the rights of woman", and recreates, through poems, Wollstonecraft's struggles for equality and love. How queerness and radical politics intersected—earlier than you thought. Well before Stonewall, a broad cross section of sexual dissidents took advantage of their space on the margins of American society to throw themselves into leftist campaigns. Sensitive already to sexual marginalization, they also saw how class inequality was exacerbated by the Great Depression, witnessing the terrible bread lines and bread riots of the era. They participated in radical labor organizing, sympathized like many with the early prewar Soviet Union, contributed to the Republicans in the Spanish Civil War, opposed US police and state harassment, fought racial discrimination, and aligned themselves with the dispossessed. Whether they were themselves straight, gay, or otherwise queer, they brought sexual dissidence and radicalism into conversation at the height of the Left's influence on American culture. Combining rich archival research with inventive analysis of art and literature, *Love's Next Meeting* explores the relationship between homosexuality and the Left in American culture between 1920 and 1960. Aaron S. Lecklider uncovers a lively cast of individuals and dynamic expressive works, revealing remarkably

progressive engagement with homosexuality among radicals, workers, and the poor. Leftists connected sexual dissidence with radical gender politics, antiracism, and challenges to censorship and obscenity laws through the 1920s and 1930s. In the process, a wide array of activists, organizers, artists, and writers laid the foundation for a radical movement through which homosexual lives and experiences were given shape and new political identities were forged. Love's Next Meeting cuts to the heart of some of the biggest questions in American history: questions about socialism, about sexuality, about the supposed clash still making headlines today between leftist politics and identity politics. What emerges is a dramatic, sexually vibrant story of the shared struggles for liberation across the twentieth century. Allowah Lani's new book, *I Am Love*, is a sequel to his 2016 book, *Who Am I? Yoga, Psychedelics and the Quest for Enlightenment*. In that earlier book, the author looked critically at the issue of the legitimacy of psychedelics on the spiritual journey, ultimately leaving the question unanswered. In *I Am Love*, the intention is to offer a more definitive statement and practical method for those using psychedelics as a tool for spiritual growth. Can psychedelics like ayahuasca really and truly reveal the ultimate nature of reality? Exploring ayahuasca in the context of studying the modern spiritual classic *A Course in Miracles*, the author answers cautiously in the affirmative. Yes, they can, but there is much inner work to be done to get there, not to mention confronting our great fear of awakening. Are you up for the greatest challenge of your lifetime, of any lifetime? Are you ready? Everyone thrives on love, comfort, and the safety of family, friends, and community. But if you are denied these basic comforts early in life, whether through a lack of physical affection or emotional bonding, you may develop intense fears of abandonment that can last well into adulthood—fears so powerful that they can actually cause you to push people away. If you suffer from fears of abandonment, you may have underlying feelings of

anger, shame, fear, anxiety, depression, and grief. These emotions are intense and painful, and when they surface they can lead to a number of negative behaviors, such as jealousy, clinging, and emotional blackmail. In *Love Me, Don't Leave Me*, therapist Michelle Skeen combines acceptance and commitment therapy (ACT), schema therapy, and dialectical behavioral therapy (DBT) to help you identify the root of your fears. In this book you'll learn how schema coping behaviors—deeply entrenched and automatic behaviors rooted in childhood experiences and fears—can take over and cause you to inadvertently sabotage your relationships. By recognizing these coping behaviors and understanding their cause, you will not only gain powerful insights into your own mind, but also into the minds of those around you. If you are ready to break the self-fulfilling cycle of mistrust, clinginess, and heartbreak and start building lasting, trusting relationships, this book will be your guide. One woman's journey to find the lost love her grandfather left behind when he fled pre-World War II Europe, and an exploration into family identity, myth, and memory. Years after her grandfather's death, journalist Sarah Wildman stumbled upon a cache of his letters in a file labeled "Correspondence: Patients A-G." What she found inside weren't dry medical histories; instead what was written opened a path into the destroyed world that was her family's prewar Vienna. One woman's letters stood out: those from Valy—Valerie Scheftel—her grandfather's lover, who had remained behind when he fled Europe six months after the Nazis annexed Austria. Valy's name wasn't unknown to her—Wildman had once asked her grandmother about a dark-haired young woman whose images she found in an old photo album. "She was your grandfather's true love," her grandmother said at the time, and refused any other questions. But now, with the help of the letters, Wildman started to piece together Valy's story. They revealed a woman desperate to escape and clinging to the memory of a love that defined her years of freedom. Obsessed with Valy's story,

Wildman began a quest that lasted years and spanned continents. She discovered, to her shock, an entire world of other people searching for the same woman. In the course of discovering Valy's ultimate fate, she was forced to reexamine the story of her grandfather's triumphant escape and how this history fit within her own life and in the process, she rescues a life seemingly lost to history. From the 1930's to the 1970's, Harry Harlow's experimental findings have changed the way psychologists view learning, thinking, and motivation. The papers selected for From Learning to Love study behavior principles and describe better techniques for examining them. They discuss in depth the development of learning, motivation, and the affectional system as well as the interrelationships between love, aggression, and fear. A comprehensive collection, From Learning to Love is a valuable resource for psychiatrists, child care specialists, and parents who want to understand how their children develop.
