Echte und unechte Synthesen Juliane Lange 2014-04-24 Warum verwendet der Mensch nur bestimmte Produkte? Welche Gesetzmäßigkeiten verbergen sich hinter dem Konsum? Und was ist das Geheimnis erfolgreicher Marken? Die Flopprate neuer Produkte steigt stetig. Die Produkte, die sich am Markt behaupten können, kämpfen gegen die Austauschbarkeit. Bemühungen der Differenzierung sind nicht immer erfolgreich, denn ein Andersein bedeutet nicht zugleich Gute sein. Für Marketingverantwortliche stellen sich oftmals folgende Fragen: "Wie sieht es aus?", "Wie hort es sich an?", "Wie riecht es?", "Wie schmeckt es?" und "Wie fühlt es sich an?". Nicht alle Sinne lassen sich über jeden Werbekanal abbilden. Aber sie lassen sich ersetzen - durch den sinnvollen Einsatz gelernter Assoziationsbilder. Das vorliegende Buch beschäftigt sich mit dem multisensuellen Zusammenspiel einzelner Produktmerkmale und betrachtet hierzu zahlreiche Produkte aus der Praxis, denn nicht immer sind die Implementierungen erfolgreich, einige Akzeptanzprobleme sind vorhersehbar und manche Fehler lassen sich durch eingehende Analysen vermeiden. Dafür ist v.a. die Kenntnis synästhetischer Effekte erforderlich, die in den folgenden Kapiteln umfassend von verschiedenen Seiten theoretisch und praxisnah anhand von Beispielen aus der Werbewelt beleuchtet werden. Ein umfassend recherchiertes und eigenständig aufbereitetes Kapitel über Farben und deren Lehre bildet ein kleines Highlight des Titels

Paradigm Shift: Why International Students Are so Strategic to Global Missions Jack D. Burke PhD M.Div. 2019-03-15 It is of strategic importance for international students and scholars to come under the umbrella of global missions. The author is convinced there is need for a paradigm shift in global missions. With over one million international students from practically every country on the face of the earth, many being Christian, having come to the U.S. for their higher education, we cannot afford to waste this golden opportunity. Reasons will be provided why this is our divine "moment" in history for Christian leadership to rise up and take action. The potential is there for us to create a tremendous impact for Christ on nations which in the past have been difficult to reach. God works in mysterious ways and this has to be one of them. It is imperative that we get with God's program and focus on: • identifying Christian international students soon after their arrival on campus. • training them Biblically and theologically. • equipping them for their return home. • following them up after their return with support. Documentation is provided, some from missionaries themselves, showing that properly trained Christian international students after returning home are much more effective than traditional foreign missionaries. Reasons why are clearly and with great conviction provided. However, we still need traditional foreign missionaries because of the fields being white unto harvest but the laborers are few. The reader will be fascinated by the illustrations of those Christian international students who returned home to accomplish feats for God on a scale that never before had been thought possible.

Sharp Suits Eric Musgrave 2019-10-10 This book contains everything you need to know about suits, from the traditional designs of the early 1900s, to innovative contemporary variations. It was awarded Financial Times' Fashion Book of the Year. Clothes make the man. For millions of men across the world the common denominator that identifies them is the suit. Just three and a half metres of fabric, some internal shaping elements, lining, buttons and several metres of thread are all it takes to produce the jacket-and-trouser combination that can be seen from boardrooms to bars, wherever men gather. In Sharp Suits we examine the fascinating history and evolution of the modern suit from the late seventeenth century to date. From eighteenth-century bespoke to the mass industrialization of the twentieth century, we see how the uniform of the ruling classes became the utilitarian outfit of the worker. A series of thematic chapters also illustrate how the universal staple of a man's wardrobe can play many different roles and, chameleon-like, can mean different things in different situations. From the Duke of Windsor to The Thin White Duke, David Bowie; from James Brown to The Jamel from Guys and Dolls to The Godfather, movie stars, rock stars, heroes and villains, philanthropists, presidents and gangsters – all these men and many more have dressed to impress in a matching jacket and trousers and have found that a suit will suit them very well. 'Clothes can 'do a job'. A well-cut suit can make you slimmer, taller, sexier, more elegant or business-like.' Sir Paul Smith

The Press Gang Godfrey Cheshire 2020-09-29 A dialogue about cinema's legacy and best directors through essays by three of the best long-form critics out there, collected from the legendary NYPress for the first time. Comprising of the kind of long-form criticism that is all too rare these days, the weekly film columns in the NYPress included polemics, reviews, interviews, festival reports and features. A far cry from what is often derisively termed the "consumer report" mode of criticism, Cheshire, Seitz and White were passionately engaged with the film culture of both their own time, and what had come before. They constituted three distinctly different voices: equally accomplished, yet notably individual, perspectives on cinema. Their distinctive tastes and approaches were often positioned in direct dialogue with each other, a constant critical conversation that frequently saw each writer directly challenging his colleagues. Dialogue is important in criticism, and here you can find a healthy example of it existing under one proverbial roof. This three-way dialogue between Cheshire, Seitz and White assesses the 1990s in cinema, along with pieces on New York's vibrant repertory scene that allow us to read the authors' takes on directors such as Hitchcock, Lean, Kubrick, Welles, Fassbinder and Bresson, as well as topics such as the legacy of Star Wars, film noir, early film projection in New York City, the New York Film Critics Circle, Sundance, the terrorist attacks of 9/11 and the emerging cinema of Iran and Taiwan.

This Victorian Life Sarah A. Chrisman 2015-11-03 Part memoir, part micro-history, this is an exploration of the present through the lens of the past. We all know that the best way to study a foreign language is to go to a country where it's spoken, but can the same immersion method be applied to history? How do interactions with antique objects influence perceptions of the modern world? From Victorian beauty regimes to nineteenth-century bicycles, custard recipes to taxidermy experiments, oil lamps to an ice box, Sarah and Gabriel Chrisman decided to explore nineteenth-century culture and technologies from the inside out. Even the deepest aspects of their lives became affected, and the more immersed they became in the late Victorian era, the more aware they grew of its legacies permeating the twenty-first century. Most of us have dreamed of time travel, but what if that dream could come true? Certain universal constants remain steady for all people regardless of time or place. No matter where, when, or who we are, humans share similar passions and fears, joys and triumphs. In her first book, Victorian Secrets, Chrisman recalled the first year she spent wearing a Victorian corset 24/7. In This Victorian Life, Chrisman picks up where Secrets left off and documents her complete shift into living as though she were in the nineteenth century.
